Best for beginners. Gotta say, by much, the very best Litecoin (topic) reserve I've purchased via Kindle. And for that, I'll give this an outstanding five stars to begin with. Awesome read indeed. Kudos to the author. Fully recommend this for newbies and those who are still learning more about Litecoin. If you're someone who's a really pro, or includes a good grasp on what litecoin or bitcoin works, this might not be the very best book for you personally. I'm actually not used to bitcoin/litecoin/ethereum, and still needed a lot of study and work to accomplish before completely investing a big quantity onto it, and this publication is just what I

needed and helped me get a thorough understanding of the Litecoin history and how exactly to manage it. Although, there are some topics or particular subjects discussed in this publication that are often researchable on the web, but I love how the author explains it completely and more easy to understand, plus he cited some other authors for the said topic.
