That is a scam judging by the value to price ratio There's only 50 webpages with large fonts, and the book cost over 8 dollars. It is full of . In case you are already searching for books on cryptocurrency or blockchain, you'd be much too advanced for the little info offered in this publication. Tu not only explains how to invest in bitcoin, he provides reader a thorough knowledge of what it really is, where it originated from, and how it works. You will get the same quantity of info or even more by watching the initial 1-2 youtube video clips from a bitcoin or blockchain search. The bad grammar and punctuation alone (it really is clearly unedited) make this difficult to comprehend. This book does a great job of explaining what bitcoin can be, where the phenomenon originated from, and where the long term of bitcoin is most likely headed. I would recommend this book to anyone wanting an improved understanding of bitcoin or crypto currency! Two

thumbs up! This go through helped me to understand how to trade bitcoin, even here I got how to spend my money through cryptocurrencies. A waste. just meaningless tips like not meeting strangers in dark alleys to exchange bitcoins This book is a joke and the reviews are fake. Also, the author does not have an excellent grasp of the building blocks. No insights are given above and beyond what one can know from googling. An excellent beginners overview outlining the advantages of Bitcoin. Don't bother This is the poorest Bitcoin resource I've ever read.. Great guide to understanding Bitcoin I was interested in this book because I have heard about people buying Bitcoin and We didn't know anything about it. Furthermore, the author constantly makes circular references and assumes the reader understands the technology he's authoring without defining them. Worthless.. It's a good thing it was free! A complete guide If you know nothing at all about bitcoin, this is a great place to start. For me this book's details is OK for someone that's never actually heard about bitcoin, but even if I'm that person I wouldn't buy this book for pretty much \$8. Male no mistake, you will grasp bitcoin with this reserve. Usually do not buy this reserve! I read through the publication and the info in the book could be reduced to less than 10 web pages. I find that book is well crafted and easy to comprehend thanks.. Usually do not buy this book! It is full of wrong things and will not educate you on anything. For somebody who knows about the topic, it is hilarious. The book isn't worthwhile. Reading the wikipedia entry on Bitcoin taught me more. There is absolutely no concrete details on anything. Another good guide by Anthony Tu This book can help you learn and understand more about Bitcoin. Usually do not buy. This book provides helped me a whole lot.. It is essential read in case you are thinking of investing in the bitcoin phenomenon! The bad grammar and punctuation alone (it is obviously unedited) make . Although brief the book does give insights into the power of Cryptocurrency. It is a must read if you are thinking of investing in the bitcoin phenomenon!
