Take a dive into the globe of cryptocurrency cost manipulation. The ones that got in early stood to make a lot of money. We examine one incident that occurred during Super Bowl LII with VIBEHube.io and their VIBE Coin. What rules can we expect to see in the coming a few months that can help smooth some of the rough edges that the crypt marketplace faces. Will this type of incident continue steadily to happen? Was this an intentional Pump and Dump of the coin? One thing is for certain. With a small market cap and little to no regulation, cryptocurrency prices can fluctuate wildly. Those that weren't so lucky have already been left keeping the bag.
