Money is now an integral protocol of the internet.the internet” by anyone. For the entire span of history – cash needed human beings to manage the money and groups of wealthy people (companies) who could maintain the control. We are alive at the same time where human beings are effectively implementing the biggest technical revolution in the history of individual civilization.middle men” have long been a required evil. Thanks to Bitcoin- they are no longer necessary. These cash “ It will change the world a lot more than the invention of tv, radio, mobile phones and “ It really is a content material type- one that could be transmitted anywhere at any time –Why is Bitcoin so particular? as we know it- combined.
