The story of Bitcoin and cryptocurrencies has tended to spotlight price volatility, controversy, Bitcoin millionaires and Lamborghinis. The purpose is to unravel some of the complexities of Bitcoin, blockchain and other cryptocurrencies. We wrote this reserve whilst teaching myself about Bitcoin and blockchain. All of this sound is masking a few of the truly revolutionary blockchain developments. This reserve was created for a novice, by a novice and contains an outline concerning how Bitcoin works, the annals of Bitcoin, what Bitcoin may be worth and how exactly to value it and finally a look at other major cryptocurrencies.
