An easy guidebook to help expand understand cryptocurrency Another book on cryptocurrency by Sam Clarkson. This book goes beyond his previous ones.An excellent book, to be used as further guidance once the basics of cryptocurrency is understood and the trader is comfortable with his/her cryptocurrency account.This is the first in a series of books which explains effective methods to pick the best trading set-up and achieve profit at the right time.I liked how the writer Sam Clarkson, explains everything using his own connection with the trade and his very own formula for risk management per trade.The writer goes into risk management, psychology of trading and the trader, how the marketplace works, and additional strategies on how best to make profit and cut losses. Sam, through his very clear and precise writing, displays an easy, step-wise technique on how to begin trading bitcoin or any cryptocurrency and what to search for in trading markets.
