What if there is an investment opportunity which could triple your money in just three months? Although this sounds like a fantasy, that's exactly what would happen in the event that you had committed to the coins discussed in the initial Cryptocurrency Insider Secrets book. These coins, all trading less than one dollar during writing, produced the average return of 312%. This time, institutional money is via Wall Street, so when banks and hedge funds get involved, prices rise faster than previously. Why to push out a sequel? And today, by popular demand, I'm releasing a sequel with 10 even more exciting crypto tasks, all currently trading at significantly less than one dollar with huge prospect of gains in 2018. The issue is will yours become one of them? And there were certain coins that skyrocketed actually higher: Tron, a Chinese project not discussed in virtually any other crypto reserve on Amazon, brought returns of just one 1,677% Neblio increased 966% Status rose 900% In the event that you had invested \$500 in Tron, you'd have made over \$8,000 in only three months. Needless to say, millionaires will be made. Rat races will end. Lives will be transformed forever. For one reason, a second cryptocurrency boom is arriving and one that will make last December's gains appearance small. Some things you'll discover: How even a technophobic 90-year-old can buy bitcoin in less than 15 minutes (no more difficult than buying other things online) - Page 19 The coin disrupting a \$1.2 trillion-dollar economy - Page 50 The five big factors you will need to examine before investing in a coin (following this checklist separates the great investments from the rest) - Page 14 A coin bridging crypto and traditional economic assets (leading the way for adoption by banks) - Page 36 An all-celebrity coin with great industry connections (essential if any crypto task is to take off) - Page 30 And much more!
