Who has not really heard of Bitcoin by now? It's the current buzzword of tech disruptors, web activists, alternate economists and get-rich quick gurus who are all trying to ride this big wave of hype that Bitcoin speculators and traders have unleashed. Not to mention, the big question, in the event you also buy Bitcoin now? You will discover answers to these questions and more in this eBook compiled by Kim Komando, National Radio Display Host, USA Today Columnist and Best Selling Author. But what's Bitcoin really? And why may be the blockchain a bigger deal than Bitcoin itself?
