The purpose of this book is to fill the data gap and understanding between cryptocurrency enthusiasts and everyone else. To point out the fundamental reason behind the creation of Bitcoin and the explanation for its popularity. What fanatics like so much in Bitcoin and various other cryptocurrencies. What need does it serve? To describe what is fundamentally incorrect in present-day culture it is trying to address. Compare different groups. And incredible revenue potential. What natural forces will move the market up regardless of what you believe in? What exactly are the three stages of the bull market? What will it mean to an trader and where are we in today's bull marketplace? Because there are over a thousand different cryptocurrencies and many more are created each day. So, how can you choose the best one to invest in? Which of the cryptocurrencies would healthy the description and just why? What is usually the holy grail of cryptocurrencies? Why a lot of people may experience a significant jump in their standard of living (potentially up to 20 times just in the standard of living) if a substantial portion of the populace and, therefore, the overall economy was to switch from using federal government currency to cryptocurrency. The perfect cryptocurrency. The right moment. The ideal answer to the market needs. There is a large incentive to use it, even for those who do not use a computer! The proper price. A currently unique offer that the marketplace demands. The proper category.!!Why invest in cryptocurrency right now in case you are still skeptical about its future?
