# THE BLOCKCHAIN WILL SAVE WORLD

A technical vision of the perfect  
infrastructure of the new millennium

Written by Dario Scattarelli

"You can write anything that you would be able to  
write on a server and put it onto the blockchain.  
Instead of Javascript making calls to the server, you  
would be making calls to the blockchain."

Arbitt. 

Vitalik Buterin

*Dario Scattarelli*

**The Blockchain will save world: Ultimate book to understanding blockchain, bitcoin, cryptocurrencies, smart contracts and the future of money.**
