The financial world has been transformed by cryptocurrency (crypto). Just about everyone has an objective to retire at some time. But how much do we need to retire? In addition, it gets the backing of the Federal government Reserve and governments. XRP can be solving real world complications and is supported by a significant corporation (Ripple) with top talent and encounter in its corporate structure. Ripple is also establishing major partnerships with Banks and financial institutions around the world. The response varies depending on our situation. For a lot of a nest egg of \$500,000 may be enough (particularly if you add that on top of any existing assets you own). For others, \$1 Million, \$2 Million or \$5 Million may be their objective. In this book we can do some reasonable calculations to see how much XRP you need to retire. One of the main cryptos to stand out when it comes to its value is definitely Ripple's XRP token.
