Still a Standard on the Subject Matter I purchased this for my early-teens niece thus she can find out her shades and styles befitting her coloration and physique. It was kind of a disappointment. And young ladies don't change very much either -- they still desire to look beautiful.. I believe this book, plus a little shopping money, will go a long way for this dude. I wish it had been open to me when I was an adolescent. LOL What's your season?!.Still the best in the end these years!.all blends and is pleasing. Ultimately I was able to train my vision to know what Time of year I was looking at, whatever the light in the stores.whether it's not MY color, I don't even touch the garment. From the center of the shop, I looked at the women's department, and stated, Ahh, they're all Autumn turquoises. Phooey. I never actually left the main aisle . Although the publication was created in the 1980s, I consider it a regular reference on the subject matter. There was no reason to even browse. bought 4 of these books for close friends... I asked her, perform you look good in gray? She said, "no". Well, don't use it. You do not want to walk out to greet your guests within an outfit that looks good you, and sit down in a area in another Period that fights with you and everything you are putting on. I lived by Carole Jackson's advise in this reserve. You would like to look great in your own home. (Granted, for those who have family, it may not be that simple.) I love the book I feel every person needs to know what season is theirs. I just wish I could present this to people I understand. I also found the web site and the make-up is certainly EXQUISITE! I don't have any doubt given that I'm a summer season! I really appreciate and worth her suggestions of color and how they relate with the coloring of the average person person. Many thanks Carole (and everyone involved in the CMB system) for putting this quite definitely needed and helpful info into one concise publication. Plus you possess the assurance that you always look good in your clothing . I, personally, would like to be able to help people learn their period!! An oldie but a goodie!! It's a great and easy read. And While I concur that the info it presents is timeless, I'm offering it 4 stars because seriously, can't the author/editor released an updated version so that it's a little more relatable? Unless you're still wearing feathered bangs. She had been informed that gray was "in", but she was hesitating.. Fun and Helpful Book I read this publication when it had been new and extremely popular, in the first '80s, and I really enjoyed it. Now I look like I know what I am doing with regards to both closet and make-up! I thought of the book recently and looked to see if it was still available. I was so happy to see that it was being sold on Amazon. I purchased it and examine it through almost non-stop! This book is a must and will totally change how you present your best self. We can all use every color, but need to know which color.S. Once you know your shades you can eliminate what doesn't appear best on you and hone in on the proper colors.. When I look at the grouping of best colors in my closet, it looks so harmonious, and I truly look and feel better putting on my colors. It offers tear out color bed linens for your pallette (for clothes) to take with for buying. P. I've clothes shopped once recently and I couldn't believe how easy it had been! I purchased the 1986 publication because I had lost the original. Focusing on how to gown yourself properly never is out of style! LOL ; Almost like fresh! It's a straightforward read and very well organized. I managed to look for a color swatch publication for my time of year, and I've completely changed my closet for one that really makes me look and feel a LOT better.-) I am glad to have found COLOR Me personally BEAUTIFUL by Carole Jackson once again. No more wasted money.. Oh well, there are various other shades that I know love and revel in! I had bought one years back, and I mean YEARS ago. I know I am a Winter. Back then for whatever reason I never could find out for certain what my period was, though. My hubby thanks you too! years ago I found cards-4 models, each for just one season- plus they were the size

almost of a deck of cards- You could use them therefore to create against your epidermis and find out what your season is. We have a lot of fun on our shopping outings and we enjoy treating each other to a good relaxing meal afterwards. This publication and the system just might have saved my marriage! Easy to comprehend & Now it I could just find that wonderful 'tomato red' that looks so excellent on me. Plus you possess the assurance that you generally . Now whatever I use compliments my hair/epidermis/eyes. If you're concerned about the reserve being dated, it isn't. I found the reserve refreshing after so a long time, and also some tips for women my age. It had been helpful to become reminded of the Seasons, the colours, etc. I found I had done pretty much with the initial ideas, and today know why that is the case. I really like the book. bought 4 of the books for friends. This color . My niece was happy to receive the book and it was clear she was excited about the ideas that may broaden her horizons. I think that this is actually the best book out there, and We probably have them all.I also utilize this info for interiors. This color evaluation changed my entire life 30 years ago using a personal stylist who utilized this book. I recommend this book! I could proceed through a clothing store in 15 minutes. A relative was redoing her house and debating between gray and beige for the living room. I ONLY use MY colors--thanks a lot to "Color Me Gorgeous" Your day I went buying, looking for a Winter turquoise top, showed me it's value.. I recently became aware of her again by one of my children members meeting her. I've redecorated my house in MY colors (fall) aswell..... What worked well for me was to consider the 4 Seasons with me when I proceeded to go purchasing. Get to know your colors. It's a great book. WISH I HAD THIS Publication in my 20's!! I ordered this reserve because i saw an image of myself in a white gown and compared it with an image of myself in a bright colored dress. years ago I came across cards-4 units, each for one .! Proper colors on you can bring out even more of your natural beauty I believe this reserve has excellent insights into how your skin tone and hair allow you to choose clothes that improve your appearance.. ONLY Purchase that which looks great on me and I understand in advance exactly what will! Found this way back when and it is extremely relevant since it is (IMHO) very practical with known reasons for outfit as an improvement for bringing out the very best in the wearer. Amazing how everything works. Also the jewelry. Lucky me! SILVER! . Old book, but principals even now apply. Super book almost like fresh! Apply This book has it all - color charts, examples, before and afters and a huge amount of helpful, thoughtful information. Shopping only your colors makes the whole process so easier and truly more pleasurable. LOVE this publication. Separated by periods (I'm an autumn). I give these apart to female close friends who outfit well but a different range of colors would draw out even more of their natural splendor. Saves me plenty of money and time!.. He has actually started going shopping with me, now that it is no more the most frustrating period of togetherness, and he is getting very good at picking out the perfect styles and shades for me personally! IN this book the written text is interesting; however the color samples are printed very small on the page, so I find it difficult to make use of them to know what season I am. Barely any use. I became familiar with COLOR Me personally BEAUTIFUL by Carole Jackson when she wrote her initial book in the 1970's.. And better still than that, nearly all you have will coordinate! I first bought this reserve over 40 years ago when it was first published in the 80s. I've two daughters. One a summer months, one an autumn and I am a winter season. It became my fashion bible. Every friend of mine borrowed it from time to time. They need to go together. Even today when I store I only seek out MY colors in a shop. Shopping only your shades makes the whole process so much easier and truly more pleasurable. (I am now 77) and had the swatches, that i gave to one of my

granddaughters..
