An extraordinary literary journey, a century celebrates every age from birth to 100 with quotations from the world's offering immortal passages from Arthur Rimbaud, Sylvia Plath, Virginia Woolf, David Foster Wallace, William Shakespeare, Herman Melville, Jane Austen, and Maya Angelou, among many others— This trove of wisdom— Moving year by calendar year through the words of our most beloved authors, the great sequence of existence reveals itself— NY logo, a century includes color, type, and text message to illuminate the ebb and movement of an entire life. This literary tapestry of the human experience will delight readers of all backgrounds. s greatest writers reminds us that the patterns of life transcend continents, cultures, and generations. As Thomas Mann wrote of our most shared individual experience: "It will happen to me concerning them." Created by the legendary Milton Glaser, who developed the I ?the wonders and confinements of childhood, the emancipations and frustrations of adolescence, the empowerments and millstones of adulthood, the recognitions and resignations of later years.

We can learn from every age. I will only.. Makes me sad to read... I enjoyed reading quotes from all the different people and wondering who was simply going to be next..not really worthwhile and wouldn't purchase it once again. Five Stars Amazing and meaningful gift for birthdays. Not really in a novel structure, so don't anticipate a long read..A pleasant book to keep away and refer to every once in a while. Ideal for around the desk to share with friends who are prepared to reveal their ages, too! Every year has a quote but most pages have significantly less than 10 brief lines written and only every other page because opposite the composing is a dark page. Great gift Bought one for myself plus some for presents. When I gift them, I place the bookmark at that person's age. I like it Pretty simple, yet quite profound. So fun. A good book to pick up whenever. although quite honestly, we will all have the ability to learn much from authors such as for example Anne Frank, Gabriel Garcia Marquez, John Updike and actually Virginia Woolf. A Perfect contemplative book Not only achieved it arrive quickly the book itself is beautiful. The gradient color of the web pages move wonderfully along with phrases on each page. Uy books off amazon now that have the "appear inside" option. Really appreciated the original idea and design, yet found . While it does have the general flavor of an maturing poet, I was expecting a far more considerable and revealing quote connected with each season. That may not be possible by season, and more possible by a slightly bigger swath of time. Great Gift Idea Very cool idea and great birthday present book I was expecting more I bought this book due to a favorable review in the Washington Post... Really appreciated the initial idea and design, yet found it even more depressing than inspiring and could not give it as something special. Depressing All the estimates in this book are incredibly depressing.. as well. I purchased this book for just one of my adult children who was having problems turning a particular age. What a clever idea to discover snippets from literature associated with every age group from birth to 100; Conversation starter! Only quotes. It's a great conversation starter :) Four Stars Good book for birthday gifts .but I fell in love with it for most of the various other ages inside. Something for everyone My dad, kids and We all enjoyed this book. I love showing it to friends because they come to the home. ldk how this is even a book. Three Stars Not as good as the TedTalks display would lead you to believe -- but still worthwhile.. I am savoring each and every year. Insightful but unbelievable short I actually heard an interview with the author and i gathered from hearing that their was a quotation and some further explination approximately each but that is not the case.
