The third edition of this essential text has been updated and expanded with new materials that reflects the most recent developments in the field, and explores our current understanding of a wide range of topics linked to aging and older adulthood. Updated content material such as for example revised case histories and reworked materials on essential concepts and research applications. Retains the successful format of the next edition, with chapter contents framed by specific histories. Dual models add cohesiveness to the presentation of theory. Thematic structure facilitates reader comprehension. Instructor resources provided on-line upon publication at www.pearsoned.com/move/erberwiley. Fresh edition includes

Five Stars Good condition Missing Pages New copy is lacking pages. Five Stars Arrived as expected Pretty easy read Needed this textbook meant for a college program. Came in used condition, but without highlighting which I LOVE! It is exactly as pictured and is full of readable chapters in aging and other adulthood I actually purchased this for my Psych 125 class and it arrived on time in CA. Five Stars Great Three Stars Not thrilled that the reserve was completely highlighted and pup eared nonetheless it got the work done. it was easy to follow but there is no new information This was an okay book. Quite easy read! Nothing new, it was easy to follow but there is no new information. It is exactly as pictured and is usually full of readable chapters on aging and other adulthood.
