So nice, I bought it twice! I have done lots of the Dover coloring books, but this one is the best. The images are actually elegant and varied plenty of that they're not boring. I would suggest this seller. The thing that isn't great concerning this is that the pages are two sided. If you mean to show them you are forced to choose. Or you can purchase two! This book has more girlie things than anything. Pictures It was great The trunk cover is a complete deception. I bought the book a few months ago, but when i got Prismacolor pencils for a gift, I purchased it again so I could really make the photos pop! Love this book Gorgeous book but double-sided images so needs work to improve or NO markers!! 30 detailed pictures of women and men with intricate tattoos.. Publishes need to start printing pictures single-sided so people using markers can color the images without ruining the picture on the reverse aspect. However I intend to copy mine onto 90lb cardstock printer paper so I am choosing to rate this 5 superstars on image quality only. RECOMMEND THIS ONE I REALLY LIKE REALLY INTRICATE DETAILED Photos TO COLOR AND BOY THIS ONE FITS THAT REQUIREMENT! This book rocks !!. The artwork is amazing. It really is double sided pages but I can get down with it because the images are so excellent! I also really love how heavy the webpages are.! IF I Ranked IT ON A Level Of just one 1 TO 10 IT COULD BE A 15 Love it! I am a big fan of the Dover coloring books. They always have such fun designs and different things. An extremely enjoyable coloring reserve! I prefer to color with watercolor color pencils as the pages are solid more than enough to consider the application form well. This publication is a great one! There are really no complaints when it comes to this reserve. The webpages are pull of nice illustrations that have a lot of room for multiple color applications. I believe it's my favorite of all Dover books thus far. It's all tattoo and body art designs.. It really is more interesting to have the pictures set as tattoos rather than just random photos on a page. Very busy illustrations This was for someone else and they felt that it was too busy. For those who like mandala's, this might be a good publication for you personally. The designs are large enough that you could add details very easily. Incredible artwork!! one happy MAMA So good I've bought it twice! THE Images ARE REALLY AWESOME FOR ADULTS.! Helps to keep me out from the Tattoo shop and fills my need for ink. The photo is a work in progress. This book is excellent! Dragons and daggers are stated on the trunk. Butterfly after butterfly. Total waste of money.! However they aren't represented... Five Stars I really like this tattoo book even though I don't wear then in real life great gift got this for my cousin and she loved it. the artwork inside looked actually intricate and nice.) that's plenty of for me not to many small items mk a teenager happy - glad she is enjoying it My girl loves it !. :) that's enough for me personally not to many small things mk an adolescent happy - glad she is taking pleasure in it :) and the 72 shaded pencils of program to create it all it could be - RIGHT ..! My husband is not happy at all. I'd give this book 4 stars because it is printed double-sided.! good price and acts it's purpose Yes the tattoos are ridiculous and completely out of proportion but it's a coloring publication not a priceless painting..! Five Stars Simple to use coloring book. Ordered the book to get myself and I love it. LOL
