I pre-ordered this & was therefore excited to view it shipped today! My grandma may sit all night with her 150 group of Prisma's and color to her hearts content. She appreciated it immensely. Have really loved this publication. My biggest complaint is definitely that Ms. The standard of the books & the task is very consistent. I have a great many other books that are strike & miss. This book like most of Marjorie's is adorable. She actually is definitely the best coloring publication artist with cute content animals that are therefore fun to include color to. etc. It isn't overly details but comprehensive enough for adults & Altogether, I'm highly satisfied with the product and recommend it to anyone who enjoys colouring - and incredibly cute kittens! All the pages are printed on one aspect & they are perforated for easy removal. As with most coloring books if you work with markers or pens, use blotter paper between your pages. I'm not a coloring book sort of person, but the kids appear to adore them - great present for cat enthusiasts 6-13 I'd say, if indeed they have good coloring skills. I suggest either removing web pages from the publication to color or utilizing a blotter page under your working page. Only this time, she named it Creative Kittens. none of the art runs into the binding & Recommend if you are an adult colorist who loves animals. pencils are good. I make copies onto marker paper so that I can color each page more than once. This has really been ideal for her memory space. Coloring pencils work well with this paper and even better than many of the more recent Innovative Haven coloring books I have bought. Sakura gel pens. Love this Creative Kitten Coloring Book Marjorie Sarnat has done it again! I very own a number of Marjorie Sarnat's coloring books - the first of which was her sweet "Creative Cats". I've been through a couple of copies of that book and was desiring more cute cat designs from Ms. Sarnat. Sarnat's coloring books, there exists a high level of detail. It shows a variety of kittens in lovely and playful poses. While there are some small areas to color, I don't consider the styles to be intricate and hard to color. Glue Binding but with perforated web pages so removing a full page is fairly basic. As with all of Ms. "Creative Kittens" can be an adorable follow-on to the Cats reserve. It reminds me of the four kittens we rescued and adopted (we also caught their feral mama and neutered and released her back again around our house. This is what I experienced while coloring in this book and testing the paper with my coloring medium. 31 Cute and fun to color kitten styles by Majorie Sarnat The designs are printed one aspect of the page Paper is the normal Creative Haven quality: white, medium weight, slightly rough and has perforated web pages. The kittens were so playful and fun and I obtain the same feeling out of this coloring book.) Ideal for any crazy cat woman! Alcohol-structured markers bleed through this paper Water-centered markers bleed through in spots and show colourful shadows on the trunk of the page Gel pens and India ink pens leave shadows of color on the trunk of the page. India ink pens can bleed through when I apply more than one coating of ink. inside addresses along with 2 web pages I completed using Copic markers & I could get good pigment (color) lay down, coating the same color and multiple shades also to blend easily utilizing a pencil design blender. I do still place something between your pages that I work on simply in case it does bleed through a little. She enjoyed it immensely My grandmother loves Marjorie Sarnat's coloring books. You get yourself a full page which is excellent. I love card stock since it keeps ink from seeping through and damaging the pages below. Actually cuter than I expected! Since I loved Creative Haven's Creative Cats colouring reserve, I was excited to see they were developing a Kittens publication and immediately pre-ordered it. It had been worth the wait around! These pictures are thoughtful, detailed, unique, and, as I said, just ever so cute! I'm actually enjoying colouring them, viewing those sweet kittens in adorable situations become more active with colour is so calming. Lots of detail that I enjoy. The paper is of good quality and the webpages are perforated for easy removal and screen. Much like any adult colouring publication, I'd suggest putting a sheet of blank paper behind the web page you are working to prevent pens bleeding through onto or denting the next picture. I believe kids would love it aswell. I absolutely love the Creative Haven coloring books, and also my granddaughters. I am sick and tired of books that the topic is simply in the guts with nothing at all else to color. :) Quality paper I really like this color book. about 15 Creative Haven books. Sarnat offers put way too many itty bitty things

to color. They vary by page. My eyesight is no more 20/20, so it is often tough to color those little things she places on a page. All in all, a nice coloring publication that I'm enjoying. 31 Adorable Kitten styles a lot more detailed than her Cats coloring reserve – printed one aspect of the page Wonderful book, We ordered it for my 8 year previous niece who wants to color. Cute and Fun Marjorie Sarnat has put out another Creative Cats publication. She colors a good deal so it's a very important thing that Marjorie has published multiple books. Enjoying my coloring book Cute but challenging Very cute graphics, and challenging to color (in a great way! You won't be disappointed with this buy. Remember to make sure to put some blank duplicate paper or anything you have so that if your using markers it generally does not bleed through onto another page. Or you can tear the webpages out also. Happy coloring! Hard business lead pencils, like Verithins, keep dents on the back of the web page. From what I gather, it's this artist's design with the subject matter that my grandma loves.! with Marjorie Sarnat's work. These are so fun to color. I cannot express how pleased We am with Creative Haven books & I have included some samples from inside and also the front, back again & In fact, this is suggested by her physician to greatly help with memory. It's been a extremely positive thing in that regard, in addition to giving her a innovative outlet. Favorite adult coloring book artist I own approximately 15 coloring books and I think 5 are by Marjorie Sarnat. Full of fun kittens, treats, plants & Crayons & Great coloring book I love all of Marjorie Sarnat's coloring books. Daughter loves it My 10 year old daughter loves it so much she bought a second one for her 9 year old ill friend. Beautiful coloring book with comprehensive drawings. each page includes a border. Kitties galore! Marjorie does amazing art work in every her adult coloring books.The designs stop prior to the perforations and each of the designs has a framing collection at the outer advantage. Definitely suitable for midrange to expert colourists, there's so very much intricate detail in the images, but this should in no way deter beginners! I have a lot of her books & Wonderful Puuuuurfect Beautiful Book!! This publication is no exception. Another amazing creation by her. I will purchase one for myself aswell, I definitely will be ordering from Creative Haven again. In the event that you liked Innovative Cats (which I did), you will enjoy this one. I take advantage of sharpies and the web pages are solid quality paper. I examined both oil and wax-centered pencils with very similar results.
