Very accurate! Informative and lots of fun! This is the greatest book ever created. Especially since people are really narcissistic and want to appearance themselves up as soon as they open it haha. We use it as a tool in parenting, considering our childrens' different personalities and character traits, and it can help a lot! I usually share my reserve with close friends who comes over and they prefer to read their superstar sign. For instance, one of our children will act up when they are nervous or upset about something and their page specifies stress and anxiety and negativity as an issue for them. They all love it and it turns into fun reading at gatherings of family and friends. It has the 12 Signs broken down generally into 3 classes basically every 10 days of the month. Guests want to look their birthdays up (and their friends' and family as well!) That is our second duplicate, the first is exhausted! Not worth the money when you can simply look up your day for free of charge on the website. Not long ago i became very thinking about horoscopes and purchase a book, "The Only Astrology Book You'll Ever Want" and I really wanted to look for a more descriptive book in regards to birthdays and horoscopes. Less information than old vesions. Personally i think this is low quality control Awesome Information Arrived promptly. I demonstrated to a friend in the past, (utilized to borrow from a friend. Understanding people you are exposed to (bosses, coworkers, etc. I thought it was a good offer for all the details you obtain from it and it's really entertaining for everybody. A characteristic overview of yourself. I'd definitely recommend this book to anyone who loves astrology (or not! I was under the impression it also contained your week, month, year, way etc, just like the previous version got. It's funny how somebody could compose such a book. The best book for only 30 something dollars! It's normally sell for fifty in bookstores, but I noticed it on right here and had to get it. The accuracy of the book is rather crazy. I think that if you really want to learn more about the people around you, this is definitely the publication to get.) he said, "That's a lot of information. This would make an excellent birthday or christmas gift! It's accurate what they said. Perfect for any publication collection. The very first time I ran into this book was from a neighborhood friend. I borrowed it and treasured what I read. Great book! Overall, this book is an excellent way to start out conversations with friends and family and really understand people! When I find myself thinking among the kids has been very trying recently, I'll flip with their web page in the publication and usually find something on the web page that assists me find out what might be the cause. Things that are accurate about you. Who wrote this how did they understand all this lol I love this reserve and I love sharing it a lot more. I recommend this to anyone interested to simply understand. If y'all are into it, it'll blow your thoughts. I like reading my star indication. You can lookup an individuals birthdate and it'll tell you your strengths and weaknesses, the ruling quantity, the zodiac symbols and indicators and the persons birthstone. Great to grab with groups of friends or close family. Cheap! A publication of truth." He's right! Fun go through for believers and nonbelievers First, I am not really a follower of astrology.). Great product. I've bought this for most of my family members who are like me - we know our signs and a few features, that's it. It helps remind me that she will stew on things and I could usually get to the bottom of it. In the event that you or someone you understand has a informal acquaintance with astrology it's fun. You can read about your relatives, close friends, acquaintances and anyone. Missing pages! That is definitely a great book to have, ideal for any astrology collection! I've had my chart performed for fun, and appearance at the newspaper's daily horoscope maybe 6 times a season. This could just be confirmation bias, but however, Personally i think that astrology is a good device to explore one's personal and discover hidden aspects of it they may not have considered before. The readings had been all extremely insightful and remarkably accurate for me and each person I looked up (about 10 people up to now! Of program, each birthday reading ought to be used with a grain of salt, but overall I believe this book was really insightful and on point! It also has some very good information and I especially love the suggested meditation mantras. I could definitely relate to this book It's loaded with information you hardly ever even known about each individual person's birthdates! Fun entertainment for a party...or just for yourself. Highly recommend. Lots of Good information. This book is

filled with some awesome information about the birthdays. The reserve is also an excellent coffee table piece! After this section you get it broken down to days due to numerology its a significant differences no two people certainly are a like. What I like most about this book is it has the tarot section and another section based on health. Its brief and sweet a good reference and a easy go through. Pretty spot on This book is a great read and will be great for a get together with friends. As a reserve I love it, but I realized today that my copy, ordered in 2014, is missing web pages! It goes from sept 5 to sept 22. Every single one of my family and friends have a pretty true web page about themselves, and I absolutely like reading about them and finding things about them. This is a Great Book. I have used it on several occasions and people who stop by end up checking it out. It offers a personal knowledge of your star sign. This book has a large amount of info in it so I have enjoyed it and so have all my coworkers and friends up to now in the week I've had it. Also, in the event that you look up their website, that is pretty on point also.) can be really beneficial to determining how to respond to their behaviors and also how to not get on their poor side! Thank you! Worth It! So interesting - spot on! The perfect coffee table book The perfect coffee table book. We have just ever met one individual whose birthday page wasn't incredibly accurate for them, and we've looked up everyone we realize! The content is also very good and interesting Fascinating! Fascinating book. It's loaded with a short paragraphs of people whose birthdays are related to you of past background. With that said, this publication is SPOOKY ACCURATE. Really neat to observe how birthday's collaborate therefore well with individual personalities. I'd state about 90% accurate, but lots of fun. I really like my ruling number and use it at all times in sets. I love this book so far. I must have originally saw a mature publishing of the book that had much more information. This version only contains your day.) and be surprised at how scary-true this book can be about you and folks around you! Love it! This is a special book to me.. Accurate!
