guide on what eyebrows, hairstyle and make-up works best for that person shape and how to determine your face shape this tiny book worth its weight in gold. it can help you to determine that person shape, describes what hair style, form of glasses and makeup application works best for each shape. However, I was never pleased by my eyebrows and usually found them lacking. After scanning this book, I've under no circumstances been able to check out brows the same again now that I know how much they can affect the facial skin. You'll know what to ask a specialist Love the book. Shields etc. and K. If your a newbie learning face forms and what type of eyebrow for that person it may be helpful but a youtube video will give better results.) The information obtained in this reserve makes it possible for any female to have neat, attractive eyebrows that are best shaped for her personal face. Kelly, B. Monroe, A. define them. author includes a website eyebrowz dot com where you can purchase stencils of "popular brows" , like actresses I mentioned above and even more. (And I didn't have to use stencils! It takes into consideration face form, arch, length, etc. showing you how to shape eyebrows that REALLY enhance your looks. After reading this book and purchasing a few inexpensive items, I'm pleased to say that I know how to proceed for my brows and I love the finished look my makeup now has. Eyebrows possess a much larger effect on our looks than we believe (until we find them done wrong). This book demonstrates how to accomplish it and how exactly to do it right and beautifully. To appear years younger in mins when you are of "a certain age", complete your thinned brows. I today see the brow effect atlanta divorce attorneys model and magazine advertisement I run into. to display you how to shape eyebrows that basically enhance your appears. It is worth it, and I highly recommend it. I Wish I Read This Book When We Was 15! Five Stars Great little book, Five Stars good book A great reference for make-up artists but it is VERY dated This book offers useful information about which shapes of brow works well with certain types of faces, including straight-to-the-point instructions on how to groom & It had been the weak link in my made-up face. then of course it offers you from A to Z on brows. I had never given much thought to my eyebrows other than to ensure they didn't overgrow and appearance ugly. Just about everyone has seen ladies with a unibrow, brows that are an inches thick completely to the end or have been plucked into the thickness of a toothpick. in case you have eyebrows, you need this publication! Taylor , G. Nancy Parker also advises on what to do if you have more pronounce face features, such as for example widely spaced eyes or a dominant nose. She also helps you figure out which type of eyebrow makeup will work greatest for your existing brows to find the look you desire. (Brow powder vs. brow pencil, what color, etc. It starts by reviewing five basic brow shapes and then discussing choosing the best brow for your own face form and features. Nevertheless, please take the time to you make your plan of action before you begin plucking (or waxing) apart - it'll be so worth it! If you are looking for instructions on the instgram eyebrow, this is not for you personally. The b/w photos are nothing sophisticated, however they serve the idea of showing the impact of what brows can do. those work best for your face, what products to use and with what intensity, depending for those who have a prominent nose or complete lips or close established eyes etc. It takes into consideration face shape, arch, duration, etc. I was surprised to discover that the book was published in 2000, since it includes a very dated look and feel to it. It's well worth the modest cost for a lifetime of beautiful brows. Great tips but unappealing format This little book definitely offers some excellent tips for learning how to groom your brows.) Because this book reads thus quickly, you'll be off and ready to do your personal eyebrows before very long. The teaching section of the reserve describes how to form and color your brows, reviews various locks removal techniques, and guidelines for using the most popular shaping methods. Nice Little

Simple Book Nice little book for learning natural eyebrow shaping. Despite the good information contained therein, I found the design and format of this book to be unappealing; for me, this detracted from the book's utility. Beautiful Brows is a great book for the average laywoman who would like to gain knowledge on how best to manage and make beautiful her own eyebrows. When images are used (dark and white only), the overdone and made-up appearance of the women is similar to the 1980s, and the quality of the photos is poor. The majority of the illustrations are in the form of simple line drawings; these were easy to understand however, not at all pleasurable to use. In any other case, this book is quite useful for the purchase price & I like it Best for read it . I never realized the impact that properly groomed and trimmed eyebrows can do for a face until I read this book. next to each pic there's a conclusion how to achieve this brow and what encounter shape it is best suited for. However, some of the recommended 'makeover' looks that this book provides can be dated and I'd not personally use such looks on my clients currently (unless it's a look that they need of course). If you are looking for some basic recommendations on brow grooming, this publication may very well be helpful, but keep in mind that the book is merely that--basic. is small more than enough to travel with. Two Stars Old edition but somehow educational. The publication ends with a list of famous brows--eg, Marilyn Monroe, Audrey Hepburn, Madonna--and how to acheive them. Stencils aren't required. That is for in fact searching a the facial shape, eye form and measurements to produce a natural individual brow. Its a great source for beginners but a little old fashion I received the publication quickly. Its a great resource for beginners but a little old fashion. Hepburn, E. everything on grooming and shaping is there along with pictures of famous females with gorgeous brows M. Can review what I have already been doing wrong previously and if I want to have my eyebrows professionally performed, I now know very well what to ask for.
