The faster you treat your hearing loss - improves all of your life include cognitive ability! hearing aids do not restore normal hearing Very much liked the reserve. Inspiring. Just what a difference! Uses great personal anecdotes and extensive analysis. Be aware. Do something.. Katherine Bouton did the research and up-to-date assets addressing personal and professional issues that influence living well with hearing loss. At 4, suddenly major loss of high regularity in both ears. I speak from experience as well. Like her, had to use speech therapy to relearn speaking. Find out lip reading...But also for following 60 years hearing helps wouldn't make a difference for my condition. My understanding of movies & television drop to 30%, also at high quantity. But recent training enable me to right now use hearing help. And yes, I experienced the same stages before getting hearing helps, just a lot more rapidly. Engaging. Read her publication! She covers the stages a hearing reduction person goes through, as she too experienced. I experienced 3 before found an excellent solution. Find the best one for you. Test various solutions. She offers precious tips from interacting with others to exploring your various options.... Superb guide and resource for those about a hearing loss journey. Helps me recognize that hearing impairment can stay as a solid handicap to cope with even with the very best technology currently available. Living well with hearing reduction. This book is a must-read for anyone who suspects they have hearing loss aswell as for those, like me, who have lived with hearing loss for many years.. You don't have to look anywhere else - the answers are in this book!
