This book has great information for someone just starting out with a blenderized . Couldn't have done it without this reserve! Nutritional suggestions, testimonials from parents and sample daily foods really gave me the self-confidence to get started. This book has great information for someone just getting started with a blenderized diet. At times the info was a little redundant but nothing at all to complain about. Many of the factors I was sense with my 8 month outdated tubie were put into words.. The first component addresses the all emotions that tube feeding can bring up for parents. There isn't much on feeding with g-tubes so Many thanks Thank you Many thanks. :) Precisely what I needed! This book is everything you need to start out a blenderized diet.com/products/book-homemade-blended-formula/. I do make use of an app to input and receive all nourishment information as it's a bit of a challenge to do so in some recoverable format but doable if necessary. It's just \$39. I'm just a Mommy trying to accomplish what's very best for my small. It is an absolute must have. The nutrition information is quite useful and suggestions on producing blended formulae are easy to understand. Very detailed, would recommend, 5 star Very detailed, used for a family member and would recommend for anyone who wants to begin feeding their lived one real food. Five Stars What a great resourceful book! I will keep this publication for a long time, although hopefully a blenderized diet will help my daughter eventually become an oral eater so I won't need the book forever! However, I'm not sure why it's \$199!. I actually couldn't have transitioned my son to a blended diet plan without this book! Nice publication for homemade formula for g-tube feeds Great idea for children with particular feeding needs, especially those using g-tubes. Five Stars Using this to educated myself upon blended foods designed for my special needs granddaughter.Disclaimer: I am not a nutritionist.95 direct from the author's website.  
<http://mealtime notions>. We still did so under a nutritionist in the beginning which is definitely the best method to start but rarely have to reach out to her now.
