God bless you Lillian Time! strengthens my walk with Christ in this tough time. This book can be an amazing and inspirational read This book is an amazing and inspirational read. Its an easy read, written in a very conversational style. I am simply in awe!! This book is powerful with insight and truth. It had been also comforting to listen to another woman of faith possess the same fears or even doubts. I enjoyed feeling like I wasnt only in this trip. That helps assuage a few of the guilt I sensed. I'm so pleased to become a part of her on the web group! That is a labor of love. I highly recommend it Through listening deeply to her faith Lillian Day applied the teachings of scripture directly to her actions, and found the peace she needed in her body to be able to conceive. That is a labor of like. Lillian's story and working through the journal have grown my relationship with God and elevated my my faith in him 100 fold or more. Never lose Faith ?? I'd totally recommend this book for everybody TTC it has really exposed the entire world connection between God and TTC. I am starting my third time reading it this week once I have the journal ! I'm therefore excited ! It had been hard to decelerate in my reading. God can bless you! TTCTF is normally such an amazing helpful reserve and tool in leading u to the right places to begin your TTCTF walk. God provides given Lily the words to put in every sentence and it has blessed me greatly. From web page one I was hooked. I attempted to examine one chapter a time in order that I could think about the message and take time to hear what God was informing me. This book was wonderful. Everything that I have been considering and feeling was organized right in front of me. Wonderful book! My husband and I have been TTC for 8 years and the first 7 1/2 I spent bitter and isolated. I've been through a lot in my own life but I think infertility will take the cake. My eyes were open to my lack of faith and what that actually means. To trust in God's goodness and favor, that He is able and great, but that I have an individual responsibility in searching for Him. Trying to conceive through faith is indeed powerful because it makes it not completely about us and will eventually make parenting a lot more effective when we see the miracle of our children through the lense of endurance through faith by God's grace alone. I pray a lot more and have a lot more peace after going through this publication and her journal. As a women dealing with infertility for 15 years, this book was thus encouraging! Life giving reminders to have good faith This book hasn't only changed my life, but the life in my marriage. Lillian many thanks so much for posting and writing this book! She is amazing!
