My only regret is not buying it sooner. I bought this for my Aunt and Uncle (he also got a book of father jokes) for them having their first child. I got it a couple of days after their announcement to the family for a fun present, because I knew they would get the serious ones later, and pregnancy is normally hard, so if they can laugh once and forget what they're concerned about just for a second, it did its job. My only warning can be that it offers some crude jokes in it, I experienced no issue with it, but know who you are providing it to; I knew they would appreciate it, in order that wasn't an issue.
