Illustrated with the humorous range art of Adrienne Hartman, this small book reminds us not to boil our vegetables until they are gray, inform boring stories without point to them, carry a tissue up our sleeve, or dye our very own hair and think no one can tell. Author Mary McHugh gives up a lot more than 100 tips of things never to do to push away little old ladyhood.

Short on Words and Short on Substance The book is certainly lacking in substance. It seems to be among those cases when a writer throws a handful of phrases between two covers to make a quick product. There was not much thought put into this. Frankly, the writer seems extremely bitter toward old females, probably because she is really terrified to be old herself. It might be too past due for a complete revision, but that's what this book requires. This book is by no means representative of the senior woman population. I wouldn't contact this a book; That being said, I was annoyed by all of the nasty reviewers, so I bought the book to make my own assessment. A few of the issues addressed in the "list" include issues of morality and religious beliefs, which I do not believe Mrs. McHugh is ready to tackle. The tone of the reserve is protective, narrow minded, and intolerant. I visit a very headstrong and insecure woman who is attempting to bolster her ego, her beliefs, and her life choices by placing others down for theirs. It gets the feel of an initial rough draft. Waaaaay outdated This tiny book, copyright 2008, is ludicrously outdated. They might be a little sluggish on technology, but I don't believe any of us really have the time to keep up with everything anyway. A lot of things they mentioned may be true, but the attitudes of these "nasty reviewers" reveals their unpleasant personalities.. It requires more structure, even more lightheartedness, and at least be doubled long. Its target audience may be ladies aged 85 or old, but that is clearly a bit late to consider advice on this subject.! There exists a companion publication, "How Not to Become a Crotchety Aged Man". Fun gift Gifted to MIL. I was born in 1941, making me 74. My hairdo for the reason that early component of my life was French braids. The kind of hairdo described could have been worn by a woman in her 20s or older.. This is a fun book. that measures ~ 3 1/2 x 4 inches. i did totally not realized that "book" is only just a little minnie Thingy . NOT what i expected. Very irritating, when it's, I suppose, designed to amuse. Others have handled this theme much better. Very, VERY SMALL Book Extremely disappointed in this reserve. Looked all thru the facts for the size Just before purchasing. Both are books which will cause you to smile and laugh out loud. Well, it's MUCH smaller sized, like 3 x 5 inches..7".! Fun Fun, The world needs to laugh... I take advantage of the book as a birthday gift for my old lady friends. The hair label reads: "LOLs have tightly curlew, scrunched-up hairdos left from WWII. Found nothing, so believed it was probably slim but something like the size of children's paperback books like the Beranstein Bears. it's a number of poorly-executed cartoons. The many glaring example comes from the last illustration, a female with arrows pointing to apply of her.!! And not one to need advice on avoiding becoming. They are no better than the writer whom they deride..which would make her in her 90 now. It can be read in one sitting!. Senior citizens will get themselves on almost every other page. Small old lady.. Most surely not worth the price of the item, and not at all something I would share with someone as something special. Funny ,Funny,Funny! As a senior citizen,I found thud very amusing as how never to become old. Written very tongue cheek it had been most enjoyable.. I have never looked at the size of a reserve before when ordering, nevertheless, you can be certain that I will do so going forward. The content of this book is amusing. I did so not browse the details, and never expected a book to end up being 3. she adored it had an excellent laugh This is being returned! It is rather hard to read w/o bending leading cover. Tiny Book! An introduction, not really a book I kept skimming through the boring aged clichés, thinking I would finally reach the book. All the older women I know live active lives locally. it's a mini publication! Don't waste your money Thought We was buying an actual book, not really a 2x2 postage stamp. Not really worth the money. Funny book Cute book for a gift Two Stars boring Five Stars Great. Thanks." LOL, of program, today means laugh out loud, which you can do if consider this seriously.6" x 3.
