Five Stars Great! THE ideas in the reserve are awesome. Great book with great instructions which means you do know how exactly to do just absolutely everything It is a super fun book! To enjoy with it you select a number, research to discover how to do, initial it and today you're an expert! ; An excellent and handy reference book Sections includes Education and Professions, Computers and Home Electronics, Personal Financing, Business and PROPERTY, Home Maintenance and Improvement, Gardening, Meals, Pasttimes and Crafts, Interactions, Family, Pets, Style, Etiquette and Personal Treatment, Health Fitness, Sports activities and Recreation, Automobiles and Travel. Two thumbs up No, it isn't likely to tell you developing a spaceship nevertheless, after purchasing this reserve at a garage area sale, I placed it in the shelf and forgot about any of it..Having said that, the "sister website" is [.Basically - would you find this same information on the net?..I had a need to learn how to rewire a vintage lamp. Easy as can be. I wont say its completely useless, with 1001 entries I'm sure you could find a couple of pieces of usefull details in the massively thick and heavy book. Was it basic? Sure it was. Nothing to it, in all honesty, but it is definitely something I didn't learn how to perform before. I love the 1-5 level of difficulty "hammers" which highlight for a reader how hard it may be to full a project. And if just what exactly do they use it for? "I'll wager the book doesn't have that kind of info," I thought, but yes, yes it do. Great publication for the proper demographic The book gives basic info on a lot of how-to projects.until. Yes, you could. Sometimes it does get a little fundamental but general I thought it was great. Yes, it really is.The book isn't meant to tell you the least expensive route to China, or how exactly to land the woman of your dreams, or how to gain diplomatic immunity, but if you're not sure how to go about obtaining a passport, it's a good tool....] and you might be able to find a lot of the same details there, or at google.com.!For every suggestion on how best to do that task, it gives tips to help to make that job less difficult. For some task it offers you a list of things you need or a caution note about this specific task. For example; The index of the was easy to check out if you wanted to search for a specific topic. GOODBYE TRIAL AND ERROR! HELLO SOLUTIONS1 Look no further. Goodbye dilemma. This book offers step-by-step instructions on just about everything ranging from money mannagement to house maintenance to personal care to gardening. It's refreshing to discover 1001 different tasks and skills explained in such basic fashion.Right now, take my toilet, for example; On some topics, it offers charts so you can compare such as common/popular breeds of cats or canines. carving a turkey = 3 hammers; caring for silver = one hammer and striking a house run= five hammers. Therefore stop procrastinating, obtain the book, roll-up your sleeves and deal with that long overdue "list" of unfinished projects. A Complete and Total Waste of Time and Money This book is practically useless.)Seriously though, I have to wonder if the people who rated this book highly really utilize it? Now my entire family members thinks I'm a genius, because I understand how to rewire lamps. Its probably a handy reserve to maintain at anyone's home. I wouldn't want this publication on my most severe enemy. Oh wait around my in laws got it for me for my birthday, Is practical huh?! The guidelines it gives are therefore vauge and apparent it must believe you are an idiot. the tenants got flushed something unmentionable, and I wanted to know how to snake it without getting a Plumber involved (and, at what stage to involve a Plumber) - issue solved. I'd like to know.If it involves significantly less than 10 methods, and if you feel you could easily "Google" the same information, it's in the reserve. Is it helpful to have in the book? Book This is an excellent book I really like it. I gave it to a college student who absolutely loved it. 98% of its entries are uninformative, and vauge descriptions of what you either currently knew or could quickly figure out.
