Charming and Clever I have all three of Kate Spade's books, and quite adore them. They are thin and pretty and have lots of clever little tidbits and guidelines in them, and the watercolors are enchanting. The sticker onto it with the price was a little bit hard to eliminate but doable! Even talks about clothing treatment and closet organization. However, if you DO enjoy it, you will love it. I've all three volumes sitting on a side table for easy thumbing, and guests enjoy them too. It is a brilliant fun book. Some individuals have made the claim that this is a 'one period read' but before I ponied up and bought them, I checked them out from the library multiple times. Understand How Style is Defined This book had not been what I expected. A straightforward read. Nevertheless, Kate Spade has good illustrations of how styles are placed together and includes guidance on how to look after clothing. They certainly are a little bit dated now but beautifully written and illustrated. I was looking for a thing that included more history on design. Which defeats the objective of my buying this reserve, I designed it to be ornamental. The next time I've an over night guest, I intend to place these in the guest area for some light reading. Four Stars Nicely done intro to style in general. It will always be fun to see life the Kate Spade way. Book arrived in great condition! I'll admit, this particular quantity is written with a specific taste in brain- the classic, "breakfast in Tiffany's" look. The reserve itself looks okay, but the jacket is unacceptable. It's a cute and simple book. It's a cute and basic book. It looks used and is normally wrinkled and scratched on the front. Favorite Kate Spade Book This is the best of the Kate Spade books. It includes all kinds of classic style tips. In case you are not thinking about that sort of style, you won't end up being impressed with the publication. Three Stars was no that great Sorry Kate we love you but Amy Vanderbilt a lot better at this Sorry Kate we love you but Amy Vanderbilt better at this Style redefined Fun, easy-to-read, and definitely all the hallmarks of Kate Spade style! I use if more for decoration than light reading. Five Stars Excellent for gift Style. I totally hate returning stuff and I waited a while for shipping. Unhappy at all with this buy.
