Hilarious!! Very funny! I would suggest this book and the seller!. He has a fun character and good humor so he thought this is a great gift! 20 years ago. No more relevant for current 50 season olds. This should have already been pulled from offering at least 10 years ago. Liked Funny things to brighten a Birthday persons dats and remembersnce of the celebration Great 50's Birthday Gift! Just ok Much even more for a guy than a women. The one thing is exactly what leading cover picture describes the size of the book. My husband I appreciated flipping through it before we provided it as a gift for our meant friend! Little out dated Cute gag gift, but some things seem rather dated taking into consideration the shift the general population now has toward age. Very disappointed! This book is great for those turning 50, highly recommend it! Gift I gave the book simply because a birthday present for a co-worker. Bought this book for a friends 50th Birthday, along with many other gifts but thought this is really cute and a very funny read!.. My husband I loved flipping through it before . Very funny! Bad Amazon.. I bought this as part of a present to a family group friend. For 70 season olds not 50 This book was published in 1998.! Great as a gift! Shipping was super fast and packaged well therefore the publication wouldn't bend. it's small pocket book size. Will be nice if it had been bigger like a regular size novel book otherwise great as something special. Gag gift Hilarious gift Outdated A bit outdated product is as described cute & funny gift, I'd include a pair of reading glasses, merely to compliment the reserve.! Ok however, not the greatest. Four Stars Friend thought it had been comical and enjoyed sharing the book with all of her friends
