Funny moments, poignant moments, moments we'd rather forget. Like it or not, senior moments happen. However in every case, we can take them to god, the father who cares for all of us. In the end, what would life be without the phone ringing faintly from inside the fridge? Readers can smile, laugh, and perhaps even sigh and shed a tear because they recognize the unique frustrations and joys that come with getting older. We might aswell laugh about them and thank God for just how they add curiosity to our lives. Each one of the ninety-plus short pieces in this encouraging reserve contains an email to God about a topic of particular interest to those that still can't believe we be eligible for a senior price cut. Some senior occasions are more heartbreaking or embarrassing than funny.

Perfect for the Christian senior My wife and I experienced a heck of a time previously trying to pick out a Christmas gift on her behalf grandparents who are within their 70s. But when we bought this book for them last Christmas, it was pretty apparent they enjoyed this more than anything we'd purchased for them in years past. in good shape. Because they read it in the weeks following Christmas, they commented on how great the reserve was every time we talked to them. This is definitely created with a Christian perspective, and manages to become both humorous and inspirational. LOL. Help Lord I'm Having a Senior Instant by Karen O'Connor Laughed.&The author's sharing of those events and little prayers of because of God is quite uplifting.We sent my relatives copies of the book to talk about with their friends. The Lord is watching over us! I've lived it. Senior Moments have loaded my friends with joy I bought three of these to share with my two close friends, and they loved it. I know where all my children live along with where I live. I would extremely recommend this for any Christian senior in your daily life. It is good to become reminded our heavenly Dad never includes a Senior Instant but understands whenever we do. The reserve motivated me and oh the laughs I acquired. Discovered I was regular for a Senior woman. REALLY ENJOYABLE READ! It was a fun read.. It's always good to pass books forward if they are well crafted and fun. Four Stars says it enjoy it is! As the title suggests, this band of brief essays tells of how many of seniors have unexpected events happen to them. I saw myself in quite a few of those stories! Just what we were looking for, who is fit. My oldest daughter just knows I have Alzheimer's but I assure her I know her I understand my name. Oh am I familiar with Senior moments. I was a little disappointed when I acquired it though.. A smile Good chuckles Five Stars Another Karen O'Connor great publication! Incorrect search The book itself is fine, it was a gift for my mother. Somebody must fix the metadata connected with this book to eliminate it from that search. Therefore I'm taking the reserve over to my sister in law's 300 miles away that i know she'll appreciate this. I did so a search in Amazon for large print books which one popped up and sounded great, however when I got it, it wasn't huge printing at all. I go through a little of it and it was funny, I can relate to a lot of it given that I'm headed toward my very own "senior moments". Thanks. They are both folks of faith with a great sense of humor, so this book seemed on the surface to really be up their alley. It gave me an advance notice for what's probably gonna happen in my "not so distant" future. Excellent product. Excellent product..
