My wish is certainly that as another reviewer stated, this is a republished 1955 tome, that no harm was intended, and at that time many of the lost arts were really lost. For all those that really want to understand soapmaking, like me, it is a must have in your library. Absolutely Love this book Absolutely Love this reserve! It provides everything to create your very own soap or simply make blended soap. I have made each and every recipe and they all came out perfect. I reply on opnly this book. I'm a beginner and even I know this! Need a fresh copy I bought a copy of the book when it was first published. Also be sure to operate EVERY recipe through a soap calc to find the proper amounts and percentages! It really is a must for anyone interested in soap making from advanced ways to easier techniques. I think the guidelines I gave my pal together with your book will give her a good start. I found the publication to be very informative and easy to check out. I experienced that I could learn enough for basic skills and with practice gained enough self-confidence to begin with experimenting with my very own dishes. When I went looking for another copy it didn't even occur to me to consider other books. I have done a lot of reading via the web since I initial bought this publication and have learned a great deal more but that is my first like. Though it is not the finish all end up being all reference for soap rendering it is an excellent place to start. There are some great soap quality recipes, useful for the substances; overview of the "Complete Soapmaker" Wish it had even more basic recipes apart from the tallow -very few people take the time to render it nowadays (including me personally).Or at least refer to the chance of internet recipes.. -bought this reserve for a pal that is interested in getting started - great basic overview of the cold procedure soap making and usage of natural shades and fragrances -but again should refer to the internet for the purchase of fragrances and other soap making products. I have three of this exact publication and I love it. In NYS you need to have circumstances crafter license or additional work related license in order to purchase the lye due to bomb making and meth labs - too bad. Unfortunately, I lost my copy when I recently moved but I was thrilled to see that it's still available. Blast from days gone by :) It is a vintage book and many new techniques are used now, but I found the book helpful and interesting. Nevertheless, should you have a good understanding and understanding of the soap producing process, you can certainly get some guidelines from this reserve and adapt them to suit your needs..
