There are terrible ingredients and parabens in all recipes This book is poorly written and doesn't really explain why they formulated the merchandise just how they did. No description of the huge benefits to the skin, either. I'll by no means make any of these. There are terrible substances and parabens in all recipes. Five Stars This book is amazing. Thank you! The information is so useful and the photos are impeccable. Also many pre-produced trademarked formulations are had a need to make these concoctions. I love being able to decide what I placed on my skin--and make gorgeous gifts for my friends too! The common recipe has 16 ingredients. The writer is a German naturopath so I was surprised she listed things such as Sodium Lauryl Sulfate and other such items in her raw materials list of ingredients. Not for beginners Recipes are a small complicated for you average person learning about making homemade beauty products. I was extremely disappointed. So much great info here So much great info here! Challenging and financially unfeasible recipes If you currently have plenty of experience making cosmetics and have several thousands of dollars to spend on buying the MANY and diverse, expensive ingredients required for each recipe AND want to include parabens and chemicals to your products then you may enjoy this book.
