Be it a Handlebar, a Fu Manchu, or a Laser Loop, this illustrated instruction can help men everywhere achieve the moustache of their dreams. With tons of illustrations and special tips from professional competitors, The Moustache Grower's Guideline will add major style to any 'stache. For a dash of hipster irony, the Crustache or the Pyramid appears sharp with skinny skinny jeans and glasses. Outdoorsy types can proceed crazy with the Lumberjack and some flannel, while those aspiring to steampunk design should decorate the Aeronaut with a tuxedo or nautical gear. Included are instructions for how to grow, groom, and maintain 30 classic and modern moustaches, along with fashion advice on how best to rock each look.

Best. Gift. Five Stars Great groomsmen gift! Moustache bible Tiny and poorly bound I bought this as a little gift to move with my Christmas suggestion for my barber mainly because a shop reserve...The book size is small - which I think works well for this publication. He was extremely impressed with the reserve and the way it explained things quickly and clearly. I told a guy I know about it who has a full beard and shaved his mind and he asked to look at it. This was an ideal gift. It right now sits following to his "most manly mustache" award. I'm confident his wife hates me. It's a throw-away. Just so happens his birthday fell within the timing of our bet.I'll grow out my shaved head, you grow a Fu Manchu. Great design and writing Could not require more. But that is ideal for laughs and a nice little gift for the stache lover. The look is wonderful. All you have to to do is just search on google and you'll get all of the info you need Two Stars I was looking for more detail.. The writing is also well done. Ever. Five Stars Very NOW instruction for men. Moustaches Rule! Stache Coolest small book ever! I'm sure there's more descriptive books out there. Bought for a research project and the info in this book is all the small bits that I was missing before. It also shows what clothing style looks well using what facial style! I made a bet with a friend at work. Great Little Book Very Helpful book if you are interested in growing a amazing Moustache or Beard. It's only a poorly bound, flimsy gag-present that will probably fall apart before spring break. Mustache Great little book. Liked the style tips for every style of mustache. Buy this it's great I bought this for my buddy, and it's hilarious Don't waste your cash Waste of money. Graphics are very clean and clear .
