Ideal for the Christian senior My wife and I experienced a heck of a time during the past trying to pick out a Christmas gift on her behalf grandparents who are in their 70s. However when we bought this publication for them last Christmas, it was pretty obvious they enjoyed this a lot more than anything we'd purchased for them in years past. They are both people of faith with a great sense of humor, which means this reserve seemed on the surface to really become up their alley. As they read it in the weeks following Christmas, they commented on what great the book was each and every time we talked to them. As the title suggests, this group of brief essays tells of just how many of seniors have unexpected events happen to them. I would highly recommend this for just about any Christian senior in your daily life. Help Lord I'm Having a Senior Moment by Karen O'Connor Laughed. This is definitely written with a Christian perspective, and manages to become both humorous and inspirational. The author's sharing of those events and little prayers of because of God is quite uplifting. I sent my relatives copies of the book to share with their friends. The Lord is watching over us! Oh am I acquainted with Senior moments. in good shape. Excellent product. I go through a small amount of it and it had been funny, I can relate to a whole lot of it now that I'm headed toward my very own "senior moments". It really is good to end up being reminded our heavenly Dad never includes a Senior Moment but understands when we do.. Discovered I was regular for a Senior woman. REALLY ENJOYABLE Browse! I was a little disappointed when I acquired it though. The book motivated me and oh the laughs I experienced... Senior Moments have filled my friends with joy I bought three of these to talk about with my two close friends, plus they loved it. I saw myself in a number of of those stories! It gave me an advance notice for what's probably gonna happen in my own "not so distant" potential. & I've lived it. It's always great to pass books ahead if they are well crafted and fun. Therefore I'm taking the reserve over to my sister in law's 300 miles apart that i know she'll enjoy this. Incorrect search The book itself is fine, it was a gift for my mother. A smile Good chuckles Five Stars Another Karen O'Connor great reserve! LOL. It was a fun read. I did so a search in Amazon for huge print books and this one popped up and sounded great, however when I acquired it, it wasn't huge print at all. Somebody needs to fix the metadata connected with this book to remove it from that search. Thanks. My oldest daughter just knows I've Alzheimer's but I assure her I understand her I know my name. Precisely what we were looking for, in good shape. Excellent product. I understand where all my children live in addition to where I live. Four Stars says it enjoy it is!
