Fantastic study about a lifestyle and culture As a designer with over 30 years in the menswear industry I could tell you that Amy Leverton has gotten my attention. but good images~I especially like the geographic breakdown since it allows you to appreciate how culture can form an appreciation of a fashion staple. The blurbs on each subject are short plenty of to be interesting, but long more than enough to cover the subject. Original. Great addition to any denim lovers collection Great concept, excelent spotlights about denim industry peeps. Ah well.This is an excellent study on a lifestyle and culture that runs so deep within the veins of so many of us. When I opened up it for the first time I was totally floored by the sheer quantity of content packed in to the pages. Fanastic full page photos of yummy denim! Loved this book!. Plenty of great full page colour photos of delicious denim! Excellent photography The book is amazing. Three Stars the book cover experienced a crease jeans heaven beautiful book! More exclusive design, varied cuts and matches was lacking. Overall a great book! She's made me feel like - compared to this business - I've marketed my soul for the sake of a cleaner closet. This book is crucial for the Denim enthusiasts. Gift for denim-obsessed husband Great gift for my denim-obsessed husband. You won't regret it. I love the selected paper and printing style (its not glossy) The book is amazing. My just regret can be that there was insufficient variety in the outfits. Excellent photography, extremely interesting written content (if you value men's denim!.. My only regret is that today I must say i wished I had held some of the jeans I gave up! Among the best books I've ever owned An absolutely fantastic reserve. Bravo Amy and I'm going to be looking to discover what you do next. The photography is great, especially the close up shots beautifully capture the texture of the denim. If you are considering obtaining this reserve, DO IT. Ideal for inspiration and imagination. I've abandoned my children! Glaring omission of denim manufacturers/enthusiasts from the southern United States though! Each page features a character from the Denim picture from around the world with a few lines from them about denim. :) Pictures are bold, he adores the content. Five Stars Excellent coffee table style book for denim, workwear or american heritage fans. Mostly denim jackets with denims, skinny jeans with denim jackets! but good images~ not so special. Cannot put it down!.. The dude tales, while short and focused, are wealthy and elaborate in a way that weaves together a get better at tale on denim and indigo.
