Behold! The images are gorgeous I love it! Perfect! We are lucky to be living simultaneously as the best artist ever to walk the earth. There are all these drawings that appear to be precious moments kids if you ask me with phrases like lil hilibilly, lil tramp, so very bad it's good. Honourable mention to Joseph Allen Black for his nifty book design! And what to my wondering vision should show up?. Devils and sizzling hot rods and howling wolves. MOC is a preferred artist, and once i got this I found a reason to love him even more, over and over again! He should have his very own wing at the Getty, the Met and the automobile Wash. This is actually the long-awaited follow-up to GAOAT's first publication of tattoos. cute reserve but kinda feminine We purchased this for my hubby hoping that instead of getting more random tattoos we could strategy them out a bit more and discover some amazing artwork to function into his designs. An art book at only \$10, what's not to love? Almost every image is in my opinion feminine it could look lovely on a woman but it's as well bubbly, and feminized. Its got a ton of great examples that you can do as is or utilized as a starting point for a brand new new tat. In the event that you liked the 1st one, you'll love that one. Mitch may not possess a "GAOAT" tattoo yet, however the title fits, so it may be the cross he must bear.. Artful Sassy Tattoos Incredible assortment of tattoo designs. and pink poodles with champagne bottles. Very inspiring to other artists, an excellent conversational piece, reference piece, and just chock filled with MOC goodie goodness. Wouldn't cease if someone provided me 10x what I paid for it. THE MOST RECENT! Well-performed Mitch O'Connell. Luckily the other publication I ordered is even more useable (tattoo johnny). If you like Mitch O'Connell's artwork, you'll love it too. So much art for the price Amazing for the purchase price, tons of art. Fantastic! I am a practicing artist for decades and I am blown away by the creative mind that defines Mitch O'Connell. Outstanding and really inspirational designs! BRAVO! cool little book This book is a good collection of old school style flash. Some of the tattoos have become cartoonish but still the drawings if you ask me are just not something I would like to look at on your body. Personally I think its an excellent addition to any tattoo artist flash if your into old school art. and the quality of the book its self is very good nice and durable it can hardly be called a paper back again. Bought as present for my child, she likes it. WOWZERZ! This really is a piece of work! In a great way!, I Love this book, it really is therefore jam loaded of MOC tattoo pieces I didn't know what to do. Not only amazing, but for the purchase price! Unfortunately this reserve is virtually useless for him. GAOAT has taken years of pop-tradition and regurgitated it for our pleasure. We love it! You will need this little book in your collection. Really if I wanted a tattoo for myself I could most likely find something but this book is not going to function for him. From the best Artist of All-Time! Already done tattoos away of the book. Great art reference. Amazing! Already done tattoos out of these

books. Just what the person said. Outstanding creativity! The Coffee Table Reserve you Know you Need Gorgeousness and Gorgeosity.. Can't wait to share these pictures with my art-loving friends! The images are gorgeous, and the physical book is nicer than quantity one. Way more than I expected, I'm going to buy all of them now certainly. Perfect. Easy to do to get what you want. Good tattoo book. Idea book Arrived in very good condition and on time. the only reason I give it 4 star rather than 5 is there is definitely no index for fast selecting sections. Color is fantastic. Two Stars Mitch O'Connell is a disturbed dude . Tons of tikis, film monsters and beautiful pin-ups..not what I expected when I made this purchase, the description is misleading
