great read Vaccines... This book requires a controversial subject and provides you the details you have to make educated decisions about if, when and what with to vaccinate yourself with, or loved ones. We need more dialogue about this subject which book gives accurate info. She is now developmentally delayed and provides brain damage. Amazing but true Amazing but true. specifically, the pertussis vaccine. Before giving birth you need to go through this book to keep your child safe from the toxic onslaught of what we call vaccines My lovable and sweet granddaughter almost died from a blood clot and stroke as the result of her 5in1 Pentacel DTaP shot. great read great reserve, but upsetting that this is going on. READ THIS Reserve BEFORE YOU Have got YOUR BABY AND PROTECT YOUR SON OR DAUGHTER FROM BIG PHARMA'S GREED. The publication concentrates of the DPT vaccination; She bled in her human brain and experienced a stroke. Doctors still stubbornly and desperately cling to the safety and efficacy of vaccines, though their risks have already been well documented for pretty much 8 decades. People have to stop let's assume that everyone with a medical degree really understands what they are carrying out to your child when they administer unnecessary, toxic and unproven vaccines - or cares beyond the politics/cash involved. One reason that folks continue giving vaccines to their children (also after someone like me warns them) is that their entire belief program is threatened. To think a doctor or nurse would knowingly or unknowingly take action that could damage our precious children is unthinkable. After a long time of stating that the vaccine was safe rather than responsible for the kids that developed autism after getting it; The tales of parents that their child had a poor reaction after receiving a vaccination. So many lives lost or irrevocably altered, because of a shot which does more harm than good. The thing that makes this book moving is the tales from the parents. All vaccines are dangerous and don't be fooled, they are! If you don't know very well what mercury and aluminium is, study it, both these metals are very toxic and also have no business getting injected right into a baby's body. It is ridiculous! Professor Coulter provides us knowledge that's well researched and provides us a complete picture. It takes resolve to vary from the group and become known as crazy. YOU ARE YOUR SON OR DAUGHTER'S PROTECTOR. She is doing well (and getting better each day) mostly because we hardly ever vaccinated her again. This was a good book, but it was hard for me to .. SDSerf THE REALITY about Vaccines Very great book. the pertussis vaccine was weakened/attenuated...so many sad stories. These parents banded together to fight back. We have no background of autism on either side of our family members. all this while the child is suffering temporary damage, permanent damage or will die. My son has already established over 30 shots and he is only 4.. As a Christian, I also think it is extremely disturbing that aborted fetal cells are found in the produce of vaccines. I understand someone that this happened to. I provide them with to parents that I wish to educated about vaccinations. You won't ever allow another vaccination after scanning this book. This was the first anti-vaccine book that I read and it scared the crap out of me. The antibiotics in the vaccine destroyed her gut flora and destroyed her Supplement K production which led to a severe bloodstream clotting condition. Browse this before you have kids and talk about it with those that do have kids in order to make informed choices. Professor Coulter clearly shows that this vaccine is harmful. You have a healthy child before vaccinations. Component of it had been describing the parent/doctor trust that was betrayed;After many years of stating that the pertussis vaccine was safe and that the parents were wrong at fault their misfortune on the vaccine; I only recall obtaining 6 vaccines when I was little and I believe it should have stayed the same. Perform THE RESEARCH. however, plenty of parents noticed it to spread the word. they blame any outbreaks of a virus on the un-vaccinated. The parents had been furious and looking for some pay back for the evil that had been done with

their child. My son created symptoms of autism at 16 weeks, but was healthful before after that. the doctors and nurses gave the injection(s) after that denied that the after-effects were a resulting consequence the shot, They informed the parent not to be concerned or blamed them to be a bad parent; This was a good book, but it was hard for me to get through the pages. The federal government has recently done the same thing for the MMR vaccine. It really is very simple (despite the fact that doctors continuously disagree most likely to appease their conscience). they eliminated the mercury from the vaccine after enough people were upset about it. They are poisoning our kids! They took their healthy, happy, and wise baby to the doctor for the (required) MMR vaccine after that viewed the spark of intelligence fade from his eye after receiving the shot.. The parents did not know that they had the legal right to exempt their child from vaccination; ANYone scanning this who walks aside thinking it's not a big offer. They believed that kids should be vaccinated and they will be irresponsible as parents if they did not give their child the vaccines to protect him against disease. I beg of you. Further study reveals that the vaccines are not even effective; these toxins are becoming injected into our kids so some people could make a profit. Also, they are being injected as the parents do not really want to be unique of all of those other sheep herd. Vaccines usually do not protect our infants and endanger their lives. The media actually assists reassure the sheep; All of these mother or father that had children broken by vaccines and were told that the vaccine had not been responsible recognized the story as well well. the inherent hazards of the DTP vaccine (the whole cell version given before the current acellular DTaP); How could our beliefs have already been so wrong for all of our lives? they display what the laws and regulations are in each condition.NVIC. we will be the good guys; in fact, the original name for the business was Dissatisfied Parents Together. They were in charge of the governments formation of the vaccine injury act and the organization that handles vaccine injury claims.. I would recommend that you perform the same.This book will break your heart, make you furious and change your life. How any kid survives this is a mystery to me. Good book for anybody on the fence; The majority of us believe that doctors and nurses are good people who only want to do the best for all of us and our children. This book is a "history" book of DTaP and obviously shows that parents rely on doctors too much for advice when the reply is right in front of them. A baby can be a miracle; our hopes and love in a tiny little bundle. This offering isn't intended to be considered a sacrifice. You can expect our precious bundle into the hands of the people we trust. The USA is the greatest nation on the planet;ORG was the consequence of parents banding jointly to fight the DPT vaccine; we saved the world during WW2. How can it be possible that our government would willingly allow many of our children to be broken or killed each year?ORG; I've multiple copies of the book. This book will jolt you. however, the government has simply assumed the economic responsibility (with our tax dollars) for the vaccine manufactures and the doctors that administer the pictures....clear on the dangers of vaccines. however, they would have probably provided him the shot anyways...or that the so-called immunity proported to be given outweighs the dangers of damage from photos has their mind in the sand or has been supported by among the drug companies/subsidiaries. It was actually a great deal to browse of the sme sort of story after a number of chapters. They simply repeat with different names yet another expression of the harm symptoms, in addition to the stupidity of the medical field in their blindness or dread to operate and quit ignoring the obvious. All their lives they have already been informed by doctors, nurses and the federal government that vaccines had been safe. a graphic critique for ordinary people. I would buy this for your close friends/family who may need the info presented right in their faces, or to observe how their very own vaccine damaged children were not an anomaly, so they can take back their capacity to

be the mother or father. Professor Coulter focuses on DTaP which is probably the most toxic vaccine but in conjunction with 4 additional vaccines it is extremely toxic... This is touted as a victory in the book; An excellent book within the background and dangers of vaccines, specially the DTP. An excellent look at the vaccine industry right from the start; To find out when you can exempt your children go to NVIC. and the way the denial of vaccine damage, which began with the initial administered vaccines in the 40s, hasn't changed very much in nearly 80 years. This took 7 days to develop (we believe the manufacturer knows that this can happen because they do mention the 7th day in their vaccine package place). This reserve contains many personal stories from parents who trusted their physicians, vaccinated their child. I believe in the 6 vaccines, however, not over 30. This happened in California.sometimes multiple moments despite serious reactions.. It is the same travesty heading on in the pet ownership and veterinary world.simply because their doctor told them it was "normal." Please, parents. What a hard way to discover that vaccines are not safe.A documentary was made about vaccine harm and had an extremely limited release; Once you've given your son or daughter a vaccine, you can't take it back no matter how dire the results. While this book is over 20 years previous, the information is still incredibly relevant. Despite all I know about vaccines (I am researching them for 12 years now), the tales in this book still horrified me and I came across myself crying on several occasion. How can you not place two and two jointly? It's criminal. Five Stars Everyone should read it Delivery Delivery was fast and the reserve is full of information a excellent book I actually also recommend "DPT: A GO in the Dark" in the ... I discuss Dr. Coulter's early research on page 119 of my publication
