Protecting Others: Self-Defense Strategies and Tactics for Third-Party Protection

[continue reading](#)

Addressing basic yet powerfully effective ways of self-defense, this help teaches how exactly to best deal with dangerous situations. With chapters that discuss victim rescue, vehicle security, bodyguard fundamentals, and how to survive a variety of weapon attacks, this is actually the authoritative self-defense manual for everybody from the professional soldier to the civilian. With detailed photo sequences, useful captions, and obvious illustrations that depict the best way to do drills, it uses a number of scenarios, such as home invasion, street criminal offense, terrorism, lender robberies, and even grenade attack, to show the best ways to keep family members and other third parties secure while defusing the situation as quickly and peacefully as possible.

Enjoyed It Broad in scope but gems scattered through the entire book. Written topically so it's easy to skip to what you're looking for. though wagner goes a bit too far- we can not live all our live as though we are in a constant danger. an excellent book, useful for everyone who would like to protect his family.we have to be aware, but we won't need to go with a gas mask in the pocket just in case there is a chemical substance terrorist attack.I reside in israel, and used to reside in a certain amount of danger- but in the event that you live like that you get crazy. Jim Wagner hits it out from the park with that one. I feel that Wagner is relatively biased against the traditional martial arts and the methods used to teach them, but even he must recognize that martial arts differs from self defense training.thanks. Great book Great publication innovative ideas. Five Stars Just so much usefull information in this book knowledge is power this is a great read, filled with good sense information and techniques for protecting others.anyway, the majority of the tips are useful, and the case scenarios are realistic and contain 'good to know' techniques. I found this to be an excellent source of information As a lifelong friend and colleague of Tim Stinson, I came across this to be loaded with information.as a karate teacher I took a lot of tips for my teaching. usually, this is a very important resource of details for everybody who wishes to provide protection to others.
