For each chapter in a woman's life My aunt gave this publication to my mom when she reached a certain age, and my mother gave it to my sister when she had her first child. There are poems that I read when I was youthful that I didn't fully understand, and today lines from those poems will come back again to me at several appropriate times. I acquired this book as something special for a dear friend who is expecting her first child-- it was a wonderful present for somebody I know well, but due to the nude pictures and content of some tales/poems, I wouldn't gift this reserve to an acquaintance. There are parts that bring the smiles of remembering past levels. Read and revel in this passage from "Combustion" "When I've a hot flash. Instantly Hooked!. BUY IT! I didn't enjoy this reserve as much as I did so When I Am a vintage Woman, I Shall Wear Purple....I view, astounded, as an invisible hand tosses water in the stones of my body, and I ignite. WONDERFUL! Then, necessarily, I quit the view and close my eye and float on the water, and then the fire expends itself, and I grab my little lover and create a breeze something similar to the ones that frequent northern lakes at night. Then I simply sit in the calm puddle of my flesh. It affirms our womanhood as no other reserve I've ever read. Enchanting! That is a book that you could read over and over. (It will be a good graduation gift, a good gift for a woman getting married or expecting, and a wonderful birthday present.) The publication celebrates strong females, fragile women, moms, daughters, growing up, ageing, just growing. I really enjoyed reading it." A wonderful anthology The poems, short stories, and particularly the photos in this book are so touching. This is actually the third book of the series in fact it is the most sensitive and powerful!. Poems celebrating womanhood and femininity, stories full of strength and emotions.. We read this book before and I just finished it once again.
