This is an excellent detailed book with recipes and plant descriptions This is a great complete book with recipes and plant descriptions. I am still reading it. An absolute must have for parents or grandparents. Wonderful Book for all those Seeking Plant Medicine for Children Juliette of the Herbs is my greatest mentor. This book is perfect for anyone who enjoys children, herbalism, and living as nature intended. free your mind, and dive in. Five Stars I love most of her books. i really like this lady think that feeding your child with goat's milk directly sounds intriguing? What a fantastic and informative reserve! this book reminds me just how much closer we're able to be to nature. Many thanks for the prompt shipping and quality customer support. amazing book!!! great book to prepare for pregnancy and kid birth. so inspiring tales. A treasure !really important to learn if you are thinking of having a child. INCREDIBLE FANTASTIC BOOK, EVERY Girl MUST HAVE THIS BOOK Nature's Children I LOVE this publication. It brings you back again to simple cures, simple herbs and the easy life.We learned a LOT! she shows us a far more whole and natural perspective of life and birth. it is. I extremely recommend for any expectant mother or any person interested in a more natural approach to life. I'll treasure this reserve for a long time to come! Three Stars Interesting read. Preaches about the bible and is anti-homosexual! Not really what I had at heart! Children should figure out how to be accepting of everybody. Taken from the book: "I consider homosexuality against the dignity of the human race. Fathers, when their sons are at an early age group, should warn them of the hazards of homosexuality and browse to them from the bible". Seriously? Thank you Ms. If you don't want our kid to develop up a narrow minded odd bod this book isn't for you. An outdated, aged fashioned load of rubbish, badly structured and bible bashing. A weird publication with very spiritual views and some very outdated beliefs that should not maintain a book about mentioning children in Todays society.?? Levy I am Spanish speaking living in a foreign nation. The state of the book is certainly marvelous! Juliette was extremely good at matter of truth down to earth no fuss solutions for most situations.
