

After the first year, the government is required to submit a report to the public.

THE FIRST

When I was a child, I was told that the world was a very dangerous place. I was told that I should be afraid of everything. I was told that I should be afraid of the dark, of the water, of the fire, of the people, of the animals, of the plants, of the weather, of the earth, of the sky, of the sun, of the moon, of the stars, of the planets, of the galaxies, of the universe, of everything.

But now I am an adult, and I know that the world is not as dangerous as I was told. I know that I should not be afraid of anything. I know that I should be brave, that I should be confident, that I should be happy, that I should be healthy, that I should be successful, that I should be loved, that I should be free, that I should be everything.

The world is a very beautiful place, and it is full of so much love and joy. I know that I should be grateful for everything that I have, for everything that I am, for everything that I can do. I know that I should be thankful for the people who love me, for the people who support me, for the people who help me, for the people who inspire me, for the people who make me who I am.

And I know that I should be grateful for the world, for the world that I live in, for the world that I am a part of, for the world that I can make a difference in.

So I am not afraid anymore. I am not afraid of the dark, of the water, of the fire, of the people, of the animals, of the plants, of the weather, of the earth, of the sky, of the sun, of the moon, of the stars, of the planets, of the galaxies, of the universe, of everything.

Now I am a grown-up, and I know that the world is not as dangerous as I was told. I know that I should not be afraid of anything. I know that I should be brave, that I should be confident, that I should be happy, that I should be healthy, that I should be successful, that I should be loved, that I should be free, that I should be everything.

Save your money, browse the website Therefore, see my review in ultra black hair regrowth 2000.TAKE A LOOK!AFTER READING THIS, IT IS POSSIBLE TO POINT OUT JUST OF WRONG ADVICE STYLISTS GIVE YOU. I am disappointed this reserve is so vague and it price \$43 just to possess the same info as the other 2000 version. Also, this reserve is ideal for black people who have NATURAL hair (I use an afro) calm, or a person with hair that is kinky, firmly curled, or nappy(my choice of words). The first book that address real black hair issues I have already been using Cathy's plan since June of 2003. My hair was just at my ear when I started, it is right now November and my locks is normally touching my shoulders and is the healthiest my hair offers ever been.! Out of frustration I wore braids for over a year.THIS BOOK ISN'T OUT-DATED. My hair was natural when I got the braids right down to my horror I had not been protecting my hair I had damage it beyond belif,(I had synthetic hair not really natural and it dried out my hair completly) the texture of my hair was that of matted dolls hair, and that's an insult to the dolls locks.! Still my shoulder lenth hair had to be slice to just at my ear. However, you must follow her instructions, which are so easy to do.IT'S WORTH IT. My story is similar to most sisters my hair would break off before it could get to the lenth that I'd like, or it could thin, and who wants long look out of hair? only natural locks shedding. I am no longer afraid of relaxers I did so not exspect to enjoy the procedure of growing my hair out, as much as the outcome.. Well it's their loss I hope any who is looking at this review will consider the time to believe for themselves and actually appear at what these people are griping about...nothing. Also one reviewer who critizes Cathy for promoting her hair conditioner, I wonder did it ever dawn on her behalf that there really isn't another conditioner available that originated for the benifit and needs of BLACK Locks as describe in the publication. Or give credit to someone who did not take a seat on the sidelines an whine but did something about it. I have already been truly amazed at the results that I have seen since I started using her products.) I decided to look online for a few hair care suggestions and found Cathy Howse's site for dark hair care. The get rid of should come from you. I was mortified! GREAT INFORMATION GUYS...after having my WAIST- LENGTHH (at onetime) hair massacred by stylists once i was about 16. It is much more healthier and offers halted shedding..I knew We was going to need help with developing my hair back out because for a while it would grow recent my collar bone but it would start to break as it got longer. I find it amusing that people believe I wear a weave! Because you earn more income treating the problem instead of curing it. IT WAS GREAT! They consult, "What in the world are you performing to make your hair appear and feel so great?! HER PUBLICATION IS GREAT!! Brenda Spann It's me again...but DON'T BELIEVE WHEN PEOPLE Mention SHE'S NO PROOF.. The girl provides one goal, and that's to help BLACK Visitors to learn about the care and attention of their hair.SHE DOES. I'd be more than pleased

to tell them my experiences.EVERY State SHE MAKES IS SUPPORTED BY SCIENTIFIC RESEARCH!.IT'S EVEN CITED IN HER PUBLICATION... I thought this was the original publication that contained the author's homemade recipe for conditioner as mentioned by another reviewer. Her no nonsense approach is usually refreshing and she doesn't make BOGUS promises. Well, it's not in this reserve...YOU WILL BENEFIT BECAUSE CATHY HOWSE STRESSES THAT YOU NEED TO KNOW "YOUR" HAIR. Sure...she says you need to use her products...but they are GREAT products *I have been using her system for 1 full year and the email address details are really quite fine. And I could truly say that I've learned a great deal more a about locks care.. I hardly understand why a few of the reviewers have such a poor mindset upon this book, it really appears like their nitpicking at every minute insignificant straw they can grasp at. IT WILL NEVER RESULT IN A DUSTY CORNER OF YOUR HOUSE!!and she promotes this.. The proof can be in the pudding!and her items and advice make it very easy to have clean and go hair. But I wanted to wear my own hair, when I found the program and thought I'd give it a go...!just wash and move. GIVE IT A CHANCE.. I am still in the process of reading it.! Shed in translation! The old area of the hair would not take the relaxer, my hair had to apply it 3 times to get any change in consistency, the whole while I'm praying that my locks would not melt away.IT REALLY IS TIMELESS BECAUSE IT IS DEPENDANT ON SCIENTIFIC HAIR FACTS.! I have to say that We am enjoying this reserve.. This book has a plenty of good points and suggestions. However, there are so many typos that it is getting quite of a barrier to complete the true indicating of what the publication is trying to tell me.Things like "do we actually need crease" and "dark hair ought to be moisturized every clay". And the list continues on its very quite distracting. I am sorry but whoever her editor is normally needs to be fired. Ultra Black Hair 2000 I truly LOVE this book! It's not time consuming if you don't straighten your hair at all times. I started using this publication (and also the products) in June 2002. There are some typos. Just helping you discover since the time I started making use of your product(3 weeks hence) my hair consistency improved tremendously.. Thank God! Even the ladies here at work has noticed a switch.!" I told them all about your book and products. If you should get some good strange emails it'll be from their website.! I distributed to them of our growing up collectively in the same neighborhood and attending the same school and etc. So, I understand you well plus they can trust that is real. Right now they are viewing how real it really is. I would like to challenge anyone to just ask me any queries about the Ultra Black Hair book and products.. 6 inches in a year An excellent publication! It enlightened me on the myths that we have blindly believed for years that have caused us to reduce our hair. I lend my copy out very grudgingly. If You Are SERIOUSLY INTERESTED IN Growing Your Hair UNDERSTAND THIS Book! STRATEGY TO USE, Cathy! Sometime ago, I calm and dyed my hair a strawberry blond and allowed it to be cut into a

boyish design. It had been nice at 1st, but then my locks started falling out like brittle straw (from double processing--a major no-no if you are interested in maintaining your hair). After you have the knowlege no one can ever take it away. I just happened to stumble upon this book and now my hair is below my shoulders; I halted going to the salon and went back to letting my mom relax my hair (she does much better than stylists!. I do appreciate her no-nonsense good sense approach to the problem of black hair treatment.. I'm sorry to say but if she put as much effort directly into producing sure that her book was published correctly and she does in looking after her hair after that this would've been an all-around excellent examine. The routine is not hard to check out, the book is quite EASY to comprehend, and for the grammatical mistakes, SO WHAT?!. I would suggest this book to ANY black one who wants longer stronger hair. Read the authors site, save your money. Test it out for, you'll be glad you do! I shared my book with several them plus they also found it to be extremely informative. This book may be the best kept secret around and will probably be worth it's weight in gold!?. I believe that Cathy has done a fantastic job with this reserve. In case you are seeking true hair care information, something that will work, you will definitely find it in her publication. Fortanatlly I had Cathy's reserve and I followed her advice to the letter, incredibly with 3 application of relaxer at 1 sitting NO BREAKAGE! I did so take the time to search the marketplace myself and if you would like the garbage the companies are promoting to take our cash because THEY KNOW we want long hair however they don't want to do anything about it, Why? This book and her items have already been a blessing to me. Thank you so much Cathy.
