Fabulous Fragrances II: A Guide to Prestige Perfumes for Women and Men

continue reading

An entertaining collection of a lot more than 700 fragrances for people, Fabulous Fragrances II is a bestselling book from fragrance expert Jan Moran, with a Foreword by Bijan." Blackwell says, "The perfect fragrance may be the epitome of chic and the elevation of elegance; See Desk of Contents for information. Style columnist Mr. Splendid, full-color picture taking will pay tribute to the elegant artwork of perfumery. Includes profiles of women's, men's, and unisex scents. Section I covers the basics of fragrance, such as fragrance households, composition, and way of living wardrobing. Discover the favorite scents of celebrities, learn how how to select the right scents, how fragrance reacts to epidermis chemistry, and how perfumes are categorized. Get inside tips about shopping for and wearing perfume, and develop your own fragrance style. Discouer the scents of Chanel, Guerlain, Gucci, Armani, Lauder, Klein, Patou, Arden, Reulon, and those from specialty homes of Creed, Jo Malone, Trish McEuoy, and Penhaligon's. An inuiting, must-have guide, and a perfect present. Fabulous Fragrances II (2000) is an updated version of the author's primary book, Fabulous Fragrances (1994), now out of printing. Central to the reserve will be the A-to-Z fragrance reviews, which encompass both classic and contemporary prestige fragrances. Explore the centuries-older mystique of perfume, with exciting details on composition, history, scent category and cost range. Also included is normally a cross reference index by family members and name, and an ingredient glossary, which explains frequently used perfumery ingredients. no one knows this better than Jan Moran. Fabulous Fragrances II is great for leisure visitors who want to know more about the fundamentals of perfumery, and for those who enjoy the romance associated with perfume.

I bet she thinks she actually is the FABULOUS one... This writer knows absolutely nothing about perfumes... Many of the fragrances are no longer available. she actually is strictly a culture dame; countess my ass. Jan Moran's Reserve on Perfumes This book was an excellent basic reference style book for the beginning fragrance enthusiast, however, not value for money for the more complex perfumista. It's still fun though to really have the computer with you to look up the ones that curiosity you and discover if you can get them on the web.her composing skill is non existent." there you are. Nice range of fragrances covered A bit too glossy and copy-writer-esque... I at least lucked up and got a signed copy by the countess herself, though! Nicely Presented But Suffers From Time Passage Beatiful book in a lovely reddish cover and mine was even autographed by the author! Yet the reserve cannot overcome the significant passage of time.. However, the background details given on each fragrance was significant and high quality. The writer's options of perfume types caused me to improve an eyebrow occasionally. For home use--so-so. Would have liked more photos of perfume bottles and less of cultivation It was the second book and lots of details was in the initial one only. The printing was too light on the web pages, just too few in comparison to women's perfumes listed. Five Stars Good product More men's colognes PLEASE Excellent book. I ordered a different reserve and was more pleased with stories and information and images of all perfume bottles. Overall it suffers from age and insufficient photos. I was disappointed (hence 4 celebrities) with the amount of men's perfumes protected. Would have liked more photos of perfume bottles and much less of cultivation. Reads like an advertisement for different perfumes I was disappointed in this reserve. I was hoping to learn something. I can discover the notes of perfumes at fragrantica.com therefore i didn't need the reserve for that. The majority of the book struck me as flowery words and phrases meaning nothing but designed to entice you to buy the perfume. The copy read enjoy it could attended from the perfume producers. Luca Turin's book at least really was fun to read!. This would be very useful if your task was dealing with top quality customers and fragrance. Fun book This was an enjoyable read, though it is a bit dated, and I'd have loved photos of the perfume bottles of every one. Well organized.. in the web age a book like this is a total waste of money take for example all of the fauorable reviews that exclaim "more perfumes please!. I came across the book to be of little material, and what wee bit it offers is certainly eclipsed by many and different online resources about them. this book has value as a quaint throwback to pre internet times, if that.
