Unlike the Bobbie Brown books, Christopher Hopkins' book, . Unique simple technique for applying natural look makeup Effectively written and informative book. Probably I missed it but the only point I didn't find was how to chose eye shadow colours. Great Techniques Amazing. The best makeup application book ever The best makeup application book ever!!! Everything is normally explained, and if you do the methods used you really do notice a notable difference and get yourself a professional look, although some techniques required some practice for me personally I see such an enormous difference and feel comfortable doing anyone up.
