A ton of info I actually thought this was going to be like a page-a-day calendar with just a little tips occasionally. Nevertheless, before I had actually completed it, three of Mr. But once read, one must act on the knowledge learned, and move the book to others to learn. 365 Ways to Keep Kids Safe is filled with information about potential hazards in the house, community and school and uses genuine case studies to illustrate the life altering outcomes of ignorance of those hazards, in addition to a explanation of the legal actions taken and outcomes of those case research. I keep this reserve obtainable in my waiting room and often discover parents reading it. There are several products that are noted and illustrated with photographs. Related laws, regulations and statistics are given in an readable and easy to comprehend format. I recommend this book not only for parents, but also for the waiting around rooms of therapists, pediatricians and other medical or doctors, schools and day care centers. Tragedies DO NOT NEED TO Be Repeated When I first began reading this book, my thought was that with two teenagers, there wouldn't normally be very much in this book that would apply to me. But this publication is chock-full of details that may save children and households a lot of heartache Important Publication! Keenan's warnings personally touched my life. It was the point Mr. I was shocked to find that a four year outdated girl will be buried that time in the same cemetery as my dad, having unintentionally strangled herself with the cord of the window blinds in her bedroom. I do not usually read the obituaries, but on the eve of the burial of my father, I viewed them in his hometown paper. Keenan got warned us about in chapter three. My center ached for all those parents as I thought if only those parents had browse Mr. Finally, there is information on child safeguards that's easy for the general public to comprehend and follow. The next week, I learned of a 14 year old girl (family friend) who had suffered a catastrophic stroke after breaking her leg in a four wheeler ATV accident. No more do I really believe that it generally does not connect with me. This publication has humbled me. Unfortunately, some of the precautions he outlines had not been followed. The problems for this active and appealing teen has significantly altered the course of her existence, and that of her family, forever. Once again, I reflected, only if they had Mr. In my opinion, the book entitled "365 Ways to Keep Kids Safe and sound" may be the most thorough yet easy to read book on child safety. As I approached the finish of the book last week, I was awakened in the center of the night with a knock at our door. "Get out of your house! As the fire was extinguished with the increasing sun, all that remained standing was the garage. All the hair on his body was singed. Hurry, your neighbor's house is burning. The contents of the home had been but mere ashes. The family acquired barely managed to get out. We learned that in their panic, the spouse, along with his wife and two calendar year old son, experienced escaped through the garage, while their nanny went out the front door. After obtaining outside, the husband heard the nanny screaming. He thought she was trapped inside and returned in to rescue her." Tragically, we watched our neighbor's house burn to the ground. It was determined that the fire began with an appliance in the basement. Once again, my mind went back to Mr. Keenan's publication. If only they had examined the electrical appliances, only if they had had a better smoke alarm in place, and if only that they had had an emergency escape plan with a designated conference place. All three of the tragedies might have been prevented by functioning on the anecdotal stories of these who had already suffered equivalent experiences. Keenan discusses the dangers and safety measures required with four wheelers (chapter 23). Just an hour previously I had arrive to the chapter in the publication where Mr. It will help all who examine it. As a child psychologist, I often find children who have experienced trauma including injury and/or loss. Usually do not make a spot for this on a bookshelf. Thorough & Prevention is the key to kid safety and this book written by Don Keenan, Esq. Noble Reviews Amazon

Reviews To Whom IT COULD Concern: I am composing you to recommend a book on child protection that I believe ought to be in the hands of each parent in the UNITED STATES Continent. Keenan's info. Easy to Follow June 22, 2006 Barnes & D. Mr. Keenan has been a nationally recognized kid advocate and trial attorney for over 30 years. He has represented nearly every form of child injury and believes that all were preventable. Though we've come a long way, the emphasis inside our country requirements to continue steadily to strive for sustained prevention instead of treatment. This informative publication covers risks associated in the home, neighborhood, outdoor recreation, schools/daycare, transportation and various other arenas. Most important are the actions parents can take to protect their children, including checklists, to help parents be sure they are doing everything they can to minimize risk with their children. In addition, there are checklists and statement cards for every category that should be used as tools to assure the utmost safety. Keenan's book last week. He also set up a non-profit foundation (Keenan's Kids Basis) nearly 13 years ago to create safety applications and public recognition. As a table certified physiatrist (medical doctor that specializes in Physical Medicine and Rehabilitation), who has treated pediatric injuries for 17 years, I also believe that nearly all incidents could have been prevented. This reserve is an excellent tool to bring our society closer to a safer environment for our kids and steer clear of these heartbreaking injuries that effects therefore many. After you have had the opportunity to read this valuable tool, I know you will concur that this easy to check out book would be beneficial to any parent in our nation. Should you have any questions or concerns, please usually do not hesitate to get hold of me directly @ 561-842-5695. Respectfully, Craig H. Lichtblau, M. obviously identifies almost all hazards that may place your child at harm.
