REIMAGINE Cancer tumor SURVIVAL That's what malignancy survivor Mark Roby desires you to accomplish. On December 30, 2002, Roby was identified as having one of the rarest cancers in the world and told it had been unresponsive to all or any known chemotherapy. His oncologist recommended he "accept the inevitable," With a medical insider's understanding of what it requires to stay alive when all of the odds are against you, Lifelines to Cancers Survival may be the first book to help guide cancer patients toward advanced modalities and testing, such as for example genetic profiling, individualized vaccines, and more. This is Roby's story, but more importantly it's his compilation of the many resources he painstakingly uncovered and wants to share with others who are fighting identical battles. And he survived! Quickly realizing that standard thinking would do small to greatly help him, he produced his own, personalized treatment solution targeting his specific tumor. but Roby idea otherwise. Roby really wants to business lead the charge of patients directing and supervising their personal care.

Lifelines / The cancers survival go-to book For many years Mark Roby PA-C has supplied me with specific holistic and integrative health assistance helping me to remain vigorous and productive into my early sixties. I am witness to much of what he experienced before, during and after his deadly diagnosis. Tag was on his death bed many times yet by his faith and the will to live, had the guts to ask difficult questions to learn more and the courage to try new methods, such as for example non FDA European chemotherapy. The mass media along with America's cancer authorities are frequently telling the general public about all of the breakthroughs in scientific oncology. By reading Tag's book and meeting with him I could develop a comprehensive approach systematically. who also had some significantly different recommendations than the first a single. This book is not filled up with superfluous information. It is concise, to the idea and filled with novel, cutting edge cancer survival strategies. Courageous fellow. Additionally, Tag guides the reader on how best to incorporate these technology into building their very own "Triad of Survival". We retired from the Protection Department where national security relied about integrative strategies; which is what Tag explains how to do for surviving cancers. He explains the value of methods such as adapt and respond, reference optimization along with back again up programs and how they help sufferers stay alive. Knowledge is power and sometimes survival. Mark shows sufferers how and when to get leading edge molecular profiles on the tumors, along with chemosensitivity assays if suitable to greatly help research & Analysis and seek answers. Head to as much additional sources as you can. This involves setting your intention to survive, building your team & Figure out who can perform what for you, then delegate, delegate and delegate some more. This book was given to me as something special and I can't place it down. He manuals you step-by-stage in how to take control of your disease-scenario – through establishing your purpose to survive, building a support network, nourishment, research, getting second/third opinions, and personalized testing. Glean Mark's wisdom and discover the "Best Science Available" to fight your kind of tumor. Browse the book. It was a shock when my wife was diagnosed with bilateral breast cancer last year. We are still on our trip, and are so grateful that Mark will there be. My wife and I have a holistic medical practice, in addition to both folks being Board Certified physicians in separate specialties. Be the survivor. The neighborhood surgeon we consulted immediately recommended total radical mastectomy. These concepts are typically never also suggested in traditional tumor care, and so are not something we'd ever have considered on our very own, but because Tag has explored or gone through each one of these guidelines on his own journey, he is uniquely qualified to greatly help others navigate the overwhelmingly confusing and terrifying maze of choices one is inevitably confronted with if they face this challenge., we wound up in Michigan visiting Mark professionally (a 9 hour trip for us), and also interacting with him & Through the tough early years of his cancers, he learned many equipment and strategies ("lifelines") that kept him alive. boatloads of our husbands, wives and children are going down each time with no result in site! Mark gives his visitors a thorough approach which guides patients towards individualized cancer treatment, all predicated on his own impressive encounter, which he shares in detail in this essential and well crafted book. Try as many new things as possible. internal circle and instituting anticancer nutrition & supplements as well as other existence assisting strategies. Additionally, he suggests researching your tumor, looking for multiple integrative medicine views and building your "Triad of Survival" as solid backup plans. Fearlessly ask questions. possibly guide their personal care, along with other things that he might recommend depending on one's individual scenario. After consulting several co-workers in the traditional

medical along with close friends in the holistic field, and through a series of conversations, books- including Mark's, various meetings, trips, etc. Due to Mark plus some of the people he introduced us to, we found a surgeon who we could never had found without him who was simply a really good fit for all of us, & Mark is among a handful of people to survive one of the rarest sarcomas in the world and for more than 13 years. - Steven Kaniuga Special book, special man Tag Roby's "Lifelines to Tumor Survival" has definitely been an excellent blessing from God to us, as has Mark himself and his wonderful wife Kathleen. Mark offers the 'best of both worlds'- like the importance of medical science in addition to positivity and spiritual support in search of ultimate recovery. Upon diagnosis, Tag's doctors told him to be on vacation because they believed he would not live long. clearness of mind to do it effectively if you are going through it under such great tension & duress, then the next most sensible thing is to find someone who has completed it himself and who is passionate about any of it and ready to help. That's Tag. God bless him. Steve from Pennsylvania How one remarkable mans journey could change your life too! I personally need to give Tag Roby severe credit for his successful battle to live for 13 years and counting following being diagnosed with a rare tumor and having been told he only had six months to live. I didn't meet Tag until years after his medical diagnosis at a seminar he was offering to greatly help people become aware that cancer will not need to be a loss of life sentence. He has worked and fought so difficult to be a survivor. I had a very successful Whipple Procedure performed at the leading organization that saved my entire life. He put his core into writing this publication. By reading this book you'll be surprised at how Marks's journey will have you looking at courage, strength, survival and cancer differently, Mark's publication helped save my life I was identified as having Pancreatic Tumor in August of 2017 with a medical diagnosis of 1 1 year to live with stage 3. I was informed by a significant Clinic that I was not eligible for procedure. Month after month, year after year, I watched Tag get knocked down but he got up and responded in positive and courageous ways. On paper this remarkable and beneficial book he's now able to share his journey, and let others know of all the options that are out there not only with medicine, but by using prayer healing as well! Mark's wholistic strategy was essential to my survival. This book will prepare you for the fight ahead.. Every time someone I love gets identified as having cancer I send them a copy . It is possible to live and live well with malignancy.. Every time someone I love gets identified as having cancer I send them a duplicate of this book.. This book will prepare you for the fight ahead.S.. Glad to think it is here with reasonable pricing :) God bless him. I have recommended his book to numerous others. I continue steadily to use Mark's advice specifically with diet with my goal of remaining cancer free...ought to be the first reserve you read on battling cancer. God Bless you Tag Roby. This book is a casino game changer in treatment of an insidious disease In a culture where current cancer sufferers can be found the "regular of care", Mark Roby's "Lifelines" offers a fresh new look. We was a part of his group that accompanied him to MD Anderson (Houston TX), Northwestern Memorial (Chicago IL) and the Cleveland Clinic Ohio for consultations, methods and medical procedures. But ,many patients and clinicians on the frontlines know this to end up being the furthest issue from the reality. And he takes enough time to give back to those who follow by writing this publication. .Thank God we were resulted in Marks book" Lifelines". Lifelines to Cancer Survival, offers patients a method to see things a little in a different way. This is a must read, which gives cancers victims and their families-cutting edge tools to greatly help them stay alive. Take detailed notes, keep information and fill in the knowledge gaps. Roby not only confronts the current standard of treatment, he goes further and offers patients sorely needed

assistance and ideas that go method beyond what many people are offered. Adam in livonia, MI I have the good fortune to know Mark Roby I have the nice fortune to know Mark Roby. He is an intelligent, superb, and compassionate guy. Anyone who comes in contact with him is definitely better for it.def one to put on your "I want this reserve" list!The point is: if you can't take the time to research all of this yourself - and I don't know anyone who has the luxury & That was twenty years ago. his wife. In this reserve he shares this knowledge that can help anyone facing tumor. Be thankful for whatever you can get and obtain as much help as possible. We're lucky to have got this book. Lifelines will end up being your lifeline As an incurable cancer individual and authority on the topic, Mark has outlined many key factors in Lifelines. I discovered a great deal from Mark personally and from his publication. It truly can help you advocate for yourself in a global where few people, including oncologists, understand the realities and treatment options for terminal cancer patients.. Mark gives you the tools to do just that. Fantastic book.. I really believe the information is usually invaluable.. In his book, he goes inside his trip with "terminal" cancer. Awesome book for just about any survivor or even caregivers too! Current info - readable - would be great gift for anyone recently diagnosed, in treatment, or actually post treatment.. They consist of molecular profiling, animal surrogates and individualized vaccines. Presently in the U. God bless him.
