but i would like to explain for you personally ignorant about CHEMISTRY I just ordered the book ,i have no idea if it's function for disease or not ,but i'd like to describe for you personally ignorant about CHEMISTRY, PLEASE READ IT :Chlorine dioxide isn't lye or sodium hypochlorite (I please consider the health of your son or daughter first and foremost. DO NOT BUY! Great book Amazing facts and heard bout a health care provider in illinois. Many thanks Kerri Treatment for pennies a time. I bought my duplicate used and it got highlighted passages which I presume originated from a parent who finished up subjecting their child to this horrific treatment. Respondent's work of marketing unsubstantiated health and medical promises regarding the use of chlorine dioxide in the treating autism constitutes a violation of Section 2 of the Consumer Fraud Act.! However, Rivera operates a Facebook page[37] and website[38] that promote injecting autistic kids with a toxic chlorine dioxide method via enema, and claims that the intestinal lining and membranes kids expel as a result are parasites, which is definitely patently false!! No, MMS is not the same bleach you buy at the store, nevertheless the bleach you can purchase at the store isn't the only chemical that can be known as a bleach or is certainly capable of bleaching. Jam packed with life changing info and testimonials. Info is also useful for non-autistic people. Another FRAUD posing witha Treatment for Autisim - don't waste your time upon this Psuedoscience. I was scared! What you're in fact seeing is the intestinal lining that BURNS when you give children a bleach enema. Not something that can be found post birth and then recovered from.Gave it to a friend with a daughter lately diagnosed and I'll post if there are any effects with the dietary plan and other treatments. Great book-- We am doing the process right now. Great publication with info that Big Pharma desires nobody to have (FYI-- I have a doctorate and am a normal person). My husband and I are both carrying out the MMS (CD) protocol in the publication to take care of Lyme, Bartonella, Babesia and major parasites. After struggling for a long time with chronic illness, I am 100% certain that parasites lie at the main of keeping one chronically ill.. And for the record, CD ISN'T A SIMILAR THING AS BLEACH. CD is usually for everyone I had been trying to get pregnant for about a year and nothing at all happened I visited see a dr who prescribed metformin a medication for diabetes (am not) and contraceptive pills to greatly help (We didn't take any of it). Any claim by various other reviewers that they "cured" their child's autism is definitely patently false and also unverifiable, unlike stating MMS is definitely bleach which is just a truth. For reference I've attached a photo someone else made. The information provides helped me in curing my daughters spectrum issues. The protocol works people... The evidence is in the results!! Healthy, content, sleeping and completely functioning children.Bleach will for certain ! With documented proof. Reserve was Amazing! Anyone who didn't give it 5 stars makes a living from big pharma or Community education. DO NOT BUY THIS BOOK! DANGEROUS! If you are struggling, please see an actual medical doctor, or even get in touch with an area support group. Miracle mineral option is BLEACH.DO NOT BELIEVE the other reviewers. MMS is a kind of BLEACH. Necessary Reading. MMS is made from chlorine dioxide. Chlorine dioxide could cause eye irritation, epidermis burns, nausea, diarrhea, severe dehydration, and is fatal if inhaled.This book explains to provide autistic children ENEMAS made of MMS. The fda provides condemned this process and book.Makes you realize that the word, autism, should be discarded as it is normally understood as a untreatable and permanent condition that is present from birth. This book rocks !! The photos on the remaining side have "parasites" that look a similar as the ones in the publication, and the photos on the right are *real* parasites. The Proof is in the Outcomes!Over 600 people have bought this book and that's a tragedy. It actually includes a section on how best to administer MMS in relation to the moon routine!Kerri

Rivera is an awful person. I possibly could possess helped him sooner, but outlined to the poor stuff on the internet. They said to give it a couple weeks, so hopefully if you are reading this it's because we're still in that timeframe. If not, you can be rest assured I'm going to be on the phone talking to the supervisor's supervisor the next time. Her autistic child is heading off to college because of this protocol....I hardly ever could have thought that parasites lived within us, and could create such havoc! This publication is certainly amazing - and quite the eye-opener. I used it as a guide to resolve some intestinal medical issues, and will be permanently grateful to Kerri for sharing her knowledge and encounters. Please stop saying that parents are feeding children with BLEACH (NaClO) it may can not work but Sodium Chlorite (NaClO₂) will not hurting nobody if used on right amount. Was content about that. Choose the book and read it. I am sure Big Pharma is responsible for the reviews that state this--- it total bull---t. I decided to follow the guidelines for CD and the pp protocol I acquired pregnant within 2 a few months, i wasn't actually taking the 8 dosages a day of CD. I advise everyone to read the book try CD for whatever concern you may have and then give an opinion as opposed to listening to people who haven't also tried it. Please dont. Can I give zero superstars? Please please PLEASE perform the research associated with the "treatment" methods within this book. Please analysis the writer herself, as she has ZERO medical credentials. She has also become BARRED from offering her "miracle treatment " in my state of Illinois. Please usually do not attempt any of these practices at home. I purchased this book knowing full well that it contained nothing significantly less than dangerous and unproven medical guidance.. All these 5 star reviews make me so sad..but in one parent to another. Heal yourself OMG....! I will write again in a month or 2 from today to inform you how we are performing..) As the saying goes in some sites or massmedia without the notion of the topic. So dangerous.. You can see the interviews with Kerri on YouTube and hear her story, and see the enthusiasm and drive she's to help her boy and a large number of others. Ex - Chicagoan Kerri Rivera, who now resides in Mexico, was required by the Illinois Lawyer General to sign a document[36] stating that she'd zero longer promote the use of toxic chlorine dioxide, or "CD," in the state of Illinois. The contract, which Rivera signed, says, "Respondent [Rivera] makes unsubstantiated health and medical claims regarding the usage of chlorine dioxide in the treating autism. In truth and fact, Respondent lacks competent and reliable scientific evidence to support her claims that chlorine dioxide can deal with autism.! Five Stars Sent quickly a sufficient amount of, Amaizing book !! Don't feed your children bleach This suggest feeding your kid bleach. Combining sodium chlorite with an acid produces bleach. The answer used can be bleach. The reserve includes pictures of "parasites" which were expelled by the enema, except actual parasites look COMPLETELY DIFFERENT to the photos in this god forsaken reserve. Shame on me." The contract continuing to bar Rivera from speaking at seminars and selling chlorine dioxide or identical substances for the treatment of autism. healing the symptoms is normally working very fast. I can not tell you how sad it creates me that I didn't listen to my friend years back. In the in the meantime, don't purchase this book or any other books about MMS, which is indisputably a BLEACH. My child just started this process, both boys are the same age. However the book has so much more detail and understanding that can't be communicated in interviews. Google mms to observe that the solution is bleach. I have contacted Amazon multiple instances to see if they will take this book off their website because it gives dangerous and false medical tips. If you would like the greatest for your kids, buy the publication and start now. USUALLY DO NOT BUY BLEACHING OF CHILDREN That is about BLEACHING YOUR SON OR DAUGHTER! What's wrong with this writer? Hyperchlorite sodium (NaClO is certainly Bleach) it is completely

different from sodium chlorite (compound NaClO_2) as hydrogen peroxide ($\text{H}_2 \text{O}_2$) isn't exactly like water ($\text{H}_2 \text{O}$).
