I'd recommend this to any mother or father struggling through this horrible disease . They contain the hands of others going right through the maze and nightmare of actually fighting to for his or her children's life. My 6 year old boy has just been diagnosed and I am so happy to have this publication to come back to for help. I found thus many similarities to my story here in this publication. I sure wish our family would have had this guide whenever we started this trip . MaryAnn Gray A good place to start for parents This book has many good aspects about Lyme's that a parent may not always consider, like how tired students might be because of this disease. I am so happy this book is available to families entering into the Lyme globe to help them navigate the complexities. I wish I had read this book years back. I'd recommend this to any parent struggling through this horrible disease with their child. This source helped tame my fears and empowered me to meet up with his college district; Too many ... This book is quite a long time coming. Too many of us suffered without the knowledge we had a need to help us through this challenging illness. The truth is that kids have to continue on with their schooling while battling this.. Most parents depend and believe and have faith in the medical professionals who are caring for their family. But she has noticed many, many different sufferers, so her background was quite varied and precious. We must be our own advocates. This publication is a priceless device not only one that parents must have but anyone trying to save their own lifestyle and learning as they go. I have already been fighting lyme for an extended long time but still learned things from this book We didn't know. We've seen countless experts and doctors and have only lately come to discover that my girl has been suffering from Lyme Disease. It also reminds us that likely to school and other activities may be exceptionally difficult for kids who've it severely. However, there have been aspects of her publication that I could have gone. This book is certainly nothing short of something special conceived by two ladies who have been there. The solid tips in this reserve to cope with the naysayers is definitely invaluable. This illness we contact Lyme Disease can be a different ballgame.! I've been an individual parent of a child who offers been suffering for over 4 years. It provides taken over her existence and mine and provides taken every minute of my period and every ounce of my power to sort out this. Authors - thank you for heading before us and producing the road a little smoother. This well crafted book can be an easy go through from multiple perspectives Thank you to Sandra Berenbaum and Dorothy Leland!!! I came across your book 3 days before my boy was to possess his first IEP conference, after being told his 504 was not working for him or the institution any longer. This book is quite a long time coming. educated with an open up heart and open brain for all included. That meeting was successful, and my child is thriving again, on days he is able to, and supported on times when he is getting challenged by his Lyme/PANS. Many thanks Thank you Many thanks! Excellent Guide Great insight.! Frequently children's complaints are put aside as false or exaggerated. This well crafted book can be an easy read from multiple perspectives. Lyme and Family's Great info, mixed treatment and knowledgable Dr's. Supportive family No clue where it went after downloading. I straight down loaded it and may't fond it. Tell family, teachers, college administrators! Thank you for writing such essential work. I only wish I acquired it 5 years previously at the beginning of our Lyme trip. I've purchased many books today and pass them to family, close friends and new support staff. And there is absolutely no real information about alternative methodology to take care of it, such as natural therapists who could actually have some achievement to fix it. Fabulous book, readable and very relevant. I DID NOT PURCHASE THIS ITEM. I DID NOT Buy THIS ITEM. Very informative This book is filled with helpful stories, science, and scenarios and resources.. Excellent helpful resource Exceptional book for parents very helpful in my scenario with my daughter. Five Stars So helpful
