Additionally there is somethings extremely funny that can make any ones day John Wayne Its' John Wayne. And there are various other entries aswell. That has a lot of helpful tips to tackle every day adventures in existence. The book also has a large number of entries about lifestyle topics that you might associate with John Wayne, like how exactly to properly thank a veteran, fold an American flag, or raise your kids right. Fun, useful reserve for pretty much anyone, but especially for John Wayne fans This is a terrific book, with a ton of information about how to master 100 skills for the "rugged individualist," like creating a fire, producing your own bow, finding water in the desert and other survival tactics. The publication has numerous step-by-step illustrations plus plenty of photos of John Wayne executing many of the skills noted. I believe it would make an excellent gift. (Note: A prior review said the book included a lot of John Wayne estimates, but I've only found one and that was at the start of the book.)
