It's ok. This book has many errors, and while it may be the very best (only?) basic esthetic text for new students, it is confusing. I've a Masters' degree in Science and in Arts, so it is not like I'm not used to school (changing careers), but, some of the chapters keep me scratching my mind. I must get out my aged technology and chemistry texts. Chapters on chemistry, energy and physiology are large topics condensed to some webpages and it feels as though someone who doesn't understand these topics thoroughly can be paraphrasing from another text; I'm often uncertain what they're attempting to say. When I browse this book, I must have my notebook and my other books handy. I understand it's an introduction, but I believe the basics could possibly be addressed more clearly. And certainly, the mistakes have to be corrected. It's not awful, there's a lot of good information, nonetheless it needs improvement. This was an excellent value for my daughter who's studying to be . Five Stars Great opportunity to rent.. She loves using this book.. Thank you for saving us the \$\$.? You need to be cautious and realize it's limited to your phone/tablet not computer. The only reason I'm giving it 4 superstars is because it can't be used on more platforms. Nice quality My girl is taking this course. This was a great value for my daughter who is studying to be an Esthetician. Nice quality Five Stars Was precisely what I needed. That is an educational book, one that I NEED for college and I got a scholarship in fact it is a hardship for me personally and for many individuals that want this, it will NOT be so expensive. Thanks. I appreciate the accurate details and how basic it is to use.. Great Start for Studies Great publication for class review, for some States exams. The institution wanted to sell us the publication for 70% more. You'll love it!...!! Concise Easy to read and clear in directions! Good Good Llego antes de lo esperado El artículo Sera igual a como lo describen Awesome book but terrible price! The book is excellent, no question. My constructive criticism may be the PRICE GOUGING. There is absolutely no reason why a rental and also the used should be over \$40 plus some of these rise to \$666 ?? Bought this for my girlfriend and she seems pleased with it Bought this for my girlfriend and she seems pleased with it. Loved this book and would suggest this for most Estheticians for your studies.!! A real \$ saver for students. Very Clear & Great ? Got this for esty school. One Star This book is missing chapter 19.
