Good read Interesting read. It is written with wit and style, and is most likely going to be my favorite summer read because of it. and is probably going to be the best summer read due to it I am a hard core Stahl fan, therefore getting me to learn anything that isn't Stahl has already been a stretch. Having said that, this book is fantastic. I'm taking pleasure in it so much, I may just browse it to my kids at night to talk about the love. A must have Every psychiatrist must have this. The humor can be delicate, but fabulous. It begins with medicines for schizophrenia, already an enormous plus for me, because I happen to treat a lot of people with schizophrenia and related disorders.)I'll update the review as I go along, but suffice it to say this is well worthy of the money spent so far. (It's okay, I've already started saving because of their psychotherapy for when they are older. Stahl's better Not as good simply because Stahls but provides Canadian and European data as well
