Play-Centered Interventions for Autism Spectrum Disorder and Various other Developmental Disabilities contains a wide collection of play therapy interventions for use with children and adolescents with autism spectrum disorders, dysregulation issues, or other neurodevelopmental disorders. Particular considerations for implementing organized interventions and an intervention monitoring sheet are also shown. The structured interventions focus on improvement in interpersonal skills, psychological regulation, connection and romantic relationship development, and anxiety reduction. This valuable tool is a must have for both experts and parents working on skill advancement with these populations.

Great book with wonderful intervention ideas This book has a large number of play based interventions which you can use in the treatment of autism! Great book! The interpersonal abilities checklist and the list of APPS for autism are added reward features. I highly recommend this book for practitioners working with this population. This is a great book packed with creative activities to handle emotional regulation, social skills, and relationship advancement. I especially like Angry Yes, Calm Yes and Sense List Stop Game.
