**Critical Gerontology Comes old reflects on how seniors, caretakers, and medical researchers are perceiving and adapting to traditional, interpersonal, political, and cultural changes that call into question prior assumptions about ageing and life progression.chapter authors reexamine the research, strategies, and scope of critical gerontology, a multidisciplinary field that speaks to the encounters of life in the 21st century. Through an exploration of previous and later-life levels and the dynamic adjustments in intergenerational relations, Topics consist of Medicare, privatization of home treatment, incarceration, outreach to LGBTQ elders, migration, and chronic disease. Grounded in innovative research and case research, this volume reflects multiple perspectives and is obtainable to lay readers, advanced undergraduates and graduate learners, and professionals in many fields.**
