This manual is created for use within first aid training courses offered through the Emergency Care & Safety Institute. This manual includes: Current information on injuries and illnesses: Core information for first aiders provided in a clear and straightforward format. Crisis Care Wrap-Up Tables: Provide a concise summary of what signs first aiders should look for and what treatment methods they should take. Based on the 2015 International Consensus Guidelines intended for Cardiopulmonary Resuscitation (CPR) and Emergency Cardiac Caution (ECC), MEDICAL, Seventh Edition is fantastic for use within courses designed to certify people in medical and fulfill workplace teaching requirements. Skill Drills: Present step-by-step explanations and visual summaries of important skills. More than a stand-alone text message, this student manual is the center of a teaching and learning system that offers many resources to better support instructors and prepare learners.

actually liked it. It had been easy to read but detailed ... It was easy to read but detailed enough to make you competent for every emergency that might think of a group of children and adults. Anyone who will likely be somewhere that leaves them in the position of being a first responder, this is an absolute must have. Really, really liked it. I used this book for 4 weeks come early july at a scout camp in the Piney Woods of Texas and it had been invaluable.
